Amendment Notice

Regarding Tangible Structure of the Soul Technique 3, Anchoring the D-8 Monad:

Please note: there is an error in the CD recording of **Technique 3**, where the Thyroid Gland was referred to as being located at chakra #8, between chakra #4 and chakra #5. This should refer to the **Thymus Gland** not the Thyroid Gland. During the technique, simply *intend* that this is the location of the Thymus Gland.

The Tangible Structure of the Soul Accelerated Bio-Spiritual Evolution Program

Audio Cassette Course

Welcome to the *Melchizedek Cloister Accelerated Bio-Spiritual Evolution Program – The Tangible Structure of the Soul*. We of the Melchizedek Cloister take great joy in bringing this program to you, for the information and practical techniques offered in this Audio Tape Course (and within the expanded programs to come) can create truly transformational results within your quest for spiritual growth, personal empowerment and practical understanding of the nature of and purposes for the human experience. *I am excited to bring this information to you!* I know that the spiritual quest can often be confusing as one tries to sort through a multitude of conflicting idea paradigms attempting to find "the truth", and all too often the reality of spiritual enlightenment still remains elusive. Our *Tangible Structure of the Soul Program* is unique, in that the idea paradigm upon which this program is built is **INCLUSIVE** rather than **EXCLUSIVE**. We seek to reveal the point of union between seemingly opposing perspectives, to heal the conflicts inherent to Duality Consciousness and assist in positive growth toward a Unity Consciousness that is based upon mutual love, respect, freedom and co-creative stewardship toward our planet.

The most exciting feature of the *Melchizedek Cloister Bio-Spiritual Evolution Programs* is the revelation of the "road map" through the contours of multi-dimensional human anatomy, through which the interwoven biological and spiritual aspects of human evolution can be understood and consciously accelerated. This Audio Tape Program features specific techniques and exercises of consciousness that will, if practiced sincerely, begin to open the fields of higher consciousness and spiritual enlightenment into the earthly conscious awareness. *The program is a support tool for individuals seeking accelerated spiritual awakening and is a companion to the more extensive spiritual-science teachings of the Melchizedek Cloister.*

Melchizedek Cloister Teachings

The teachings contained within this program are representative of a vast repository of ancient knowledge regarding the true purposes and processes of human biological and spiritual evolution. These teachings have been kept alive within our cultures since pre-ancient history through a secret Soul Group known as *The Keepers of the Flame*. The Keepers of the Flame are part of a large group of spiritual-science teachers called the *Melchizedek Cloister Family*. Teachings of the Melchizedek Cloister Family are "brought out of hiding" when humanity most needs this information to help direct its evolution along a positive, life-giving path. For the first time in over 10,000 years, the full teachings of the *Melchizedek Cloister Keepers of the Flame* are being publicly re-introduced. The philosophies of the Melchizedek Cloister present a view of reality in which both spirituality and science have their place and the intimate connection between spirit and science is revealed. Teachings of the egalitarian Melchizedek Cloister are not limited to the traditionally patriarchal slant promoted by some Melchizedek Priesthoods. Our perspectives are egalitarian in nature, stressing the need for balance and equal representation between the masculine and feminine aspects of reality. We assign no discriminatory bias to gender, race, religion or creed, other than to identify the differences between that which is supportive of true human bio-spiritual growth and that which impedes the growth process. The objective of the Melchizedek Cloister teachings is to cultivate an awareness of the mechanics by which

reality is created so humanity can begin to participate consciously as responsible co-creators within the universal creation drama.

The Audio Tape Course

In this first AudioTape program you will learn a bit about the underlying structures upon which reality is made manifest and you will become acquainted with the multi-dimensional anatomy of the human identity. The bio-energetic techniques provided in this program are designed through an extensive understanding of *Keylontic Morphogenetic Science* – the Science of Consciousness and Creation, a system of understanding the "blueprints" upon which reality manifests. The techniques are easy to follow and one only needs a rudimentary understanding of the ideas presented within the included lectures, in order to receive the benefits of the Keylontic Science Techniques provided. I am personally excited to bring this information to you because I KNOW THE PROGRAM WORKS!

I have experienced very rapid advancement in my own spiritual awakening and in the development of multi-dimensional perceptual skills through using these and similar Keylontic Science exercises. New worlds of perception, understanding, productivity and peace have opened up within me, as I experienced expansions of consciousness and direct cognition that I did not know existed until I ventured to use this program. I am delighted to share this information with you so you, too, may discover the joy-in-knowing that I have found, through using the programs of spiritual advancement as provided by the Melchizedek Cloister. If you could see what I have come to see, know what I have come to know, the love, joy, wisdom and power of the universe would literally open up within you. I hope for you the attainment of these states of cognition and more. The Melchizedek Cloister Program is a very good place to start in your journey toward rapid spiritual awakening.

Accelerating Bio-spiritual Evolution, through expansion of the personal consciousness and integration of the spiritual aspects of being, is the primary objective of this Audio Tape Program. The paradigm of Bio-Spiritual Evolution recognizes the intimate connection between the human DNA, multi-dimensional levels of identity and anatomy, and the spiritual integration process. The focus of this program is providing practical techniques of bio-energetic mechanics through which the consciousness can expand by integrating the constructs of the multi-dimensional human anatomy. You will become acquainted with the basic structure of 15-dimensional human anatomy and identity and the energetic *Hove Bodies* which house the multi-dimensional awareness. You will encounter the identity aspects of the *Incarnate, the Soul and Archetype, the Over-Soul and Monad, and the Avatar, Rishi, God-Self and God-Seed* that correspond to this basic anatomy structure. Techniques are geared toward assisting you to make a conscious connection with these transcendent portions of yourself and toward accelerating the natural bio-energetic processes by which these portions of your awareness can be brought into conscious embodiment. You will learn direct applications of Keylontic Morphogenetic Science, through which you can begin transforming your reality to a higher level of joy by healing and realigning the "blueprints" of light and sound upon which your manifest reality is built.

Course Contents

Tape 1:

Side A. Lecture 1: Linking with the Solar Rishi-Hova Bodies and "Christ Consciousness"

Side B. Technique 1: Linking with the Solar Rishi

Tape 2:

Side A. Lecture 2: Anchoring the D-5 Archetype – Bio-Spiritual Evolution and Soul Integration

Side B: Technique 2: Anchoring the D-5 Archetype (advanced version)

Tape 3:

Side A. Lecture 3: Anchoring the D-8 Monad-Geomancies, Fire Letters and the God-Self

Side B: Technique 3: Anchoring the D-8 Monad (advanced version)

Tape 4:

Side A. Lecture 4: Keylonta Merkaba Activation – Hova Bodies, Crystal Seals and Merkaba Phases

Side B. Technique 4: Keylonta Merkaba Activation

Tape 5:

Side A. Lecture 5: Clearing the Crystal Body-Miasma and Releasing the Karmic Imprint

Side B. Technique 5: Clearing the Crystal Body

Tape 6:

Side A. Lecture 6: Activating the God-Seed-The Family of Consciousness and the God-Seed

Side B. Technique 6: Activating the God-Seed

For detailed tape description, see page 40

I hope you will have many expansive and joyful experiences as you work with the Melchizedek Cloister *Tangible Structure of the Soul* Audio Tape Course. This audio tape program is based upon our forthcoming book:

The Tangible Structure of the Soul-A Practical Guide to Conscious Evolution

This audio program will provide you with a "sneak preview" to some of the information contained in the new book and will allow you to begin using practical techniques of Keylontic Morphogenetic Science to accelerate your personal Bio-Spiritual Evolution.

With Love, Light and Spirit's Blessings.....

Anaaylen Kananda Melchizedek
Anayhea Kananda Melchizedek

Order of the Yunasai-Azurita Melchizedek Cloister

How To Use This Audio Tape Program

The Tangible Structure of the Soul Audio Tape program is designed to serve the needs of anyone wishing to enhance their processes of Spiritual development, personal empowerment and expansion of consciousness. One does not need to fully understand the mechanics of Bio-Spiritual Evolution or to fully believe in the paradigm of Stair Step Creation in order to have this program work for you. The Lectures provided on Side A of each cassette will provide you with a short orientation to the subject matter featured in the Keytontic Science Technique on Side B. We recommend listening to the Lectures at least once before practicing the corresponding technique, to become familiar with the concepts and terminology used in the exercises. The techniques are designed in a way that allows them to be used individually or as a well-rounded program, sequentially or in any order you prefer. Recommendations as to sequence and frequency can be found at the end of each technique description in the **Course-1 Audio Tape Descriptions** section.

In the **Summary Charts** section you will find helpful diagrams and "information bites" related to the Bio-Spiritual Evolution process that will provide a bit more depth of understanding of the materials discussed in the Lectures and used in the Techniques. For those of you who have an appetite for intensive knowledge of the technical kind, the **Glossary** section in the back of this supplement provides an in-depth explanation of terms used in this program, through which you can gain a more comprehensive understanding of the Bio-Spiritual Evolution, Stair Step Creation and Higher Identity Integration process. However, it is not necessary to review the technical information in order to use this program successfully.

The most important features of this program are the **Keytontic Techniques** themselves, for it is through consistent application of these techniques that you will begin to make literal changes and expansion within your consciousness, perceptual range, morphogenetic field, bio-energetic field, chakra system, physical body and DNA. This program is designed to produce rapid yet balanced acceleration of spiritual development by affecting the morphogenetic field directly, and over time you can expect to notice subtle (or sometimes not so subtle) changes in your consciousness and body. When first using the program you may begin to feel various sensations of energy moving through your body at different times (even when you are not using the techniques), tingling or subtle infusions of heat or cold that may be noticeable, but not unpleasant. You may experience rapid improvement in dream recall, astral projection or psychic perception, especially if you use the techniques frequently and consistently. You may begin to feel the presence of an "unseen force" with you, as your own Higher Identity begins to integrate into your consciousness.

This course represents the first level of an intensive Bio-Spiritual Evolution Program, its primary purpose is to establish a strong connection between you and your Levels of Higher Consciousness, so that your physical, emotional, mental and astral bodies are prepared for more intensive course work to follow. You may find that Course-1 is all you need to reach your goals of consciousness expansion through strengthening your connection to your Higher Self. Course-1 will gently begin the process of biologically integrating your Higher Identity Levels.

The energy accelerations produced by **Course-1 Techniques** are geared toward realigning the **Astral Body levels** first, while preparing the physical body to house higher frequency energy, so you do not have to worry about disrupting the energetic balances in your body systems. You may begin to experience short periods of mild emotional body clearing or slight mental fatigue, as the mental and emotional bodies begin to realign themselves to a higher order. Such clearing periods will run in cycles, and if you keep a journal of your experiences while using this program you will begin to identify how and when these growth cycles manifest through your personal bio-energetic system. If you become uncomfortable with the feelings of energetic movement you may feel in your body, or if mental or emotional fatigue continues for more than a day or 2, we suggest stopping the program for a time, until your bio-energetic system has balanced the new energies brought in from the Techniques. Treat yourself gently and with kindness, and don't feel that

you need to rush your spiritual expansion. Your Higher Identity will regulate the rate of your growth according to what is best for your entire body-mind-spirit system.

We recommend keeping a daily journal as a general practice, even when not using the techniques. Observe your consciousness, your dreams, the content of your thoughts in the moment and begin to become more aware of the energy in your body and the quality of your inner and outer perceptions. Training yourself in such self-observation will help you to notice your progress within the program more quickly. You will also be able to look back in your journals to see "how far you've come". Journal writing is also helpful in conjunction with the Techniques. At times during the exercise, particularly after regular use of the program, you may get spontaneous insights, information or guidance pertaining to important issues. You should record this information as soon as possible after the exercise, before it fades from your awareness after returning to your usual waking focus. For this reason we suggest keeping a notebook and pen handy when practicing the Techniques. It is also wise to keep a notebook or recorder by your bedside, as use of the program will help to better organize information from the dream-state, and often your Higher Identity will communicate with you directly through the medium of dreams. Again, dream revelations will often fade or become confused once you focus into the waking consciousness (the gene code serves to fragment, block or distort incoming data from higher dimensional fields that you entered during sleep, until the 4th DNA strand and above begin activation).

This Course is highly compatible with other forms self-exploration, such as: affirmations, visualization, chakra work, bio-energetic healing, self-hypnosis, regression, belief reprogramming, rebirthing, meditation, prayer, toning, channeling, etc. We urge anyone who actively participates in such processes as the above, to use this program, as it will enhance your performance while helping you to protect yourself from unwanted influences such as Astral interference or chaotic reincarnational bleed-through. This program is designed specifically to create a strong energetic alignment between you and your Highest Identity levels, (far more than simply "opening the doors to Astral awareness"), so that your expansion of consciousness can proceed unimpeded and your exploration into the frontiers of multidimensional being can unfold safely and in a gentle manner.

When first using the Techniques it may be a challenge to keep up with the instructions or to visualize the images described. Don't be discouraged; with repetition and trust in your Higher Self, you will eventually be able to follow the Techniques with ease. The Techniques themselves will help you to develop concentration, focusing, visualization skills and higher dimensional perception. It is best to use the Techniques in a relaxed manner, removing from your mind any concern about what you will accomplish and focusing on the experience of following the steps as they come. The Techniques are intended to take you beyond your usual level of 3-dimensional perception and into inner landscapes through which you can link with your Higher Identity. To receive full benefit from the program, focus your attention fully upon the tape experience and lessen all distracting thoughts or outside interference. It is favorable to use the Techniques in a calm, comfortable, quiet environment, in which you will not be disturbed (unplugging your phone can be helpful). Though Side A Lectures can be used any time, Side B Techniques are not intended for use while driving. As with any skill development program - *patience, practice and persistence* - are most helpful in achieving the results you desire.

For those interested in more extensive development we will offer several levels of Course Work in the future, focusing upon *Advanced Keytontic Healing Practices, Developing Manifestation Skills, Honing Multi-vector Consciousness, Advanced Merkaba Mechanics and Preparing for Bio-Spiritual Ascension*. We also offer a variety of books, audio and video tapes and educational materials to further your exploration of Bio-Spiritual Evolution, Stair Step Creation and 15-Dimensional Physics.

May your journey into the frontiers of Higher Evolution be fun, inspiring and fulfilling. - Bon Voyage

The Melchizedek Cloister Emerald Order Teachings, The Eleyani and the CDT-Plates

The ancient MCEO (Melchizedek Cloister Emerald Order) perspectives teach of the Inner Christos, or living God-spirit alive within all things, including the natural environment. "Inner Christos" philosophies are built upon understanding of what is referred to as the "Law of One". Inner Christos Law of One perspective respectfully acknowledges the inter-connection, interdependence and intrinsic value of all components of reality in recognition that the Living Consciousness, "God-Spirit" or "Inner Christos" is the tangible substance of consciousness and energy from and of which all things manifest are composed. MCEO teachings offer people an opportunity for advancing personal empowerment through genuine spiritual development regardless of their religious affiliation. The "Inner Christos" of the "Law of One" MCEO spiritual teachings belongs to everyone of every creed, not just those who choose to call themselves "Christians". The word "Christos" (from which the word "Christian" later emerged) was originally spelled "Kristos" in the most ancient texts, and referred to the personal Divine Blueprint of Conscious Living God-Spirit energy of which all things and beings manifest are made.

The spiritual service work and teachings of the MCEO (Melchizedek Cloister Emerald Order) are more than perspectives based upon speculation regarding a variety of unrelated but interesting spiritual and scientific subjects. The work for which MCEO and its Speakers stand represents a very ancient, advanced **Paradigm of Perspective** on the nature of reality. The MCEO paradigm is inclusive of the other scientific and spiritual belief systems on Earth, but extends beyond the limitations and often incongruent and conflicting assumptions commonly associated with them. Through familiarity with the MCEO teachings one can grow to recognize the commonality and intrinsic complementary association between the most empowering contemporary belief systems and the MCEO perspective. At the center of contemporary MCEO teaching programs lies an "Ancient Mystery" known as the "CDT-Plates". The books and course programs produced by the MCEO are not speculative nor theoretical in nature, but are rather derived from factual **TEXT BOOKS**. Contemporary MCEO teaching programs contain **English language translations** of materials already existing within a very ancient set of texts called the **Maharata Texts** (indirectly related to the Indian "Mahabharata" writings). The 560 books of the ancient Maharata Texts are the original translations of an even older set of ancient records that have survived to our present time, stored on a set of 12 digital holographic recorder discs called the "**Cloister-Dora-Tours Plates**" or **CDT-Plates**, that were manufactured in 248,000BC. The CDT-Plates and Maharata Texts have been translated into written form numerous times in our ancient history, in many different countries and languages.

The CDT-Plates are real, physical objects, that have been kept in the private, protective custody of a specific family line of "Indigo Children" on Earth since the 9558BC "fall of Atlantis". This family line is called the **Eleyani**, who refer to themselves as the **Melchizedek Cloister Emerald Order (MCEO) Priests of Ur**; another branch of the Eleyani family call themselves the MCEO "Priests of MU'a ("MU)". The word "priest" originally meant "guardian" or *steward and administrator of spiritual wisdom*. Both males and females in stewardship to spiritual wisdom and administering this wisdom to others are referred to as "Priests" or "Ministers". The MCEO has always been, and will always be, an egalitarian, non-hierarchical, non-gender-biased spiritual service collective. There are small collectives of Eleyani descendants alive, well and living on Earth now, in various global regions, who hold the knowledge (and relics like the CDT-Plates) of pre-ancient Earth and its civilizations. Similar to some more advanced sects of Tibetan Monks, especially those who rarely emerge from their "hide outs" in the Himalayas, certain members of the Eleyani family line have open contact and direct communication with living civilizations from "other" places and other times. Every once in a while within humanity's evolution, the Eleyani are permitted to bring back the ancient teachings in their pure form, allowing for the records of the 12 CDT-Plates and Maharata Texts original translations to be re-translated into the languages of the time. The Eleyani return the knowledge contained in the CDT-Plate records to public view when it is most needed to assist Earth populations, at times when major planetary events are due to transpire. The last time written CDT-Plate translation took place was during the "Christ period" of 12BC-27AD, among a group of Essenes of Eleyani descent. Most of these written records were rapidly destroyed, confiscated or intentionally altered by the corrupt political power elite of the times, as so often has happened historically with CDT-Plate written translations. Since 27AD the Eleyani Priests knew that the next CDT-Plate Translation Cycle was scheduled to occur just prior to and during the 2000-2017AD period; a period in time when great changes in the evolutionary path of all Earth species were destined to unfold. During the 2000-2017AD period permission for written CDT-Plate translation was to be authorized by the Eleyani Priests.

CDT-Plate Translation occurs when the Eleyani Priests carefully select several individuals in childhood from general family lines that they know to be descendant from the Eleyani. They make private contact with the child, providing years of discrete training as needed. When it is time for the CDT-Plate Translation Cycle to begin, the Eleyani then offer 3 official MCEO Eleyani **SPEAKERS Contracts** to 3 of their chosen trainees that have entered adulthood (the individual is under no obligation to accept a "Speakers" appointment.). Speakers Contracts are publication endorsements for CDT-Plate and Maharata Text translations. Eleyani Speakers are permitted and trained to translate information directly from the highly protected CDT-Plate holographic discs and from their original Maharata Texts written translations. Once skilled in translation, Speakers are then endorsed by the MCEO Eleyani Priests to publicly publish MCEO CDT-Plate translations and related information as provided by the Eleyani Priests. During many historical periods written translation of the CDT-Plates was forbidden, to protect the Eleyani Speakers, and prevent Planetary Templar knowledge from being confiscated and abused by corrupt political powers; at these times only verbal presentation of the knowledge was permitted, thus translators were called "Speakers". To protect the integrity and quality of CDT-Plate translations, and to ensure the safe keeping of the 12 CDT-Plates, there are only 3 Speaker Contract appointments given during any one translation cycle. When translation publication time arrives, the 3 Speakers are eventually guided by the Eleyani Priests to find each other and work together, each endorsing the validity of the others work. In the present CDT-Plate Translation Cycle the **Speaker-1 Contract** was finalized and initiated in 1999 and the **Speaker 2 and 3 Contracts** were finalized and initiated in 2001.

Eleyani Speakers know the MCEO perspective as their truth; they share this truth with others, freely when possible, out of love for humanity and gratitude for the personal freedom in BEING that the MCEO teachings enable one to achieve. The Speakers "job" is to "give the gift" of this knowledge, through *dynamics of equal and reciprocal energy exchange*, to those who seek to know it and demonstrate through action and attitude the sincerity of this intention. The truths of which the Speakers teach are universal and freely belong to anyone who is capable of translating this knowledge from the Universal Unified Field. The CDT-Plates and MCEO Speakers provide a Sacred Service in that translation of the higher aspects of Unified Field knowledge is exceedingly difficult from the manifest fields of creation and requires much intensive training and innate abilities of consciousness and biology. The CDT-Plates serve to hold the highest aspects of Universal Knowledge in more accessible form; CDT-Plate Speakers are trained to translate this knowledge into forms directly accessible to general populations. Speakers have no need to "convince" anyone of anything, nor are they obligated to bear the burden of proof or self-justification. The burden of "Proof" lies always with the beholder, as within the natural dynamics of the Universal Law of Reciprocity and the intrinsic processes of Creation Physics, one must "know" a thing to BE before one can "see" it manifest. Speakers "Live what they Love", "Practice what they Preach" and respectfully "Share what they have to Give" with others who feel inclined to listen with reciprocal respect. MCEO Eleyani Speakers "Speak their Truth", while always respecting the free will right of others to have a different opinion.

The Eleyani Priests of UR and MU'a of Kauai, Hawaii, the 12 CDT-Plates and their ancient Maharata Text original translations, are the tangible source from which all true contemporary MCEO work emerges. Several families of Eleyani Priests in various geographical areas presently hold the 12CDT-Plates, 566 Maharata Text Books and related relics from pre-Atlantean times under high security protection. The MCEO *Inner Christos Law of One* teachings, *Templar Sciences* knowledge and *Pre-ancient History* records of the CDT-Plate teachings represent an intrinsically congruent paradigm of universal understanding; collectively the MCEO teachings are referred to as the **Emerald Covenant Freedom Teachings™**. Once upon a time, long before Atlantis, these teachings were the "common knowledge" of a once enlightened, joy-filled, peaceful, love-based global civilization of "Angelic Human" beings. Fragmented remnants of these once-united "Founders" MCEO spiritual-science teachings, which have been historically edited and altered repeatedly to serve dogmatic control agendas, have literally provided the ancient foundations upon which all of our traditional world religions, evolving sciences and "New Age" spirituality are built. The Emerald Covenant Freedom Teachings™ of the MCEO, originally provided 950 billion years ago by the Universal Founders races from which our universal life field evolved, are the enduring legacy, divine birthright and intrinsic heritage of all beings in this universe. Presently they serve also as the Long-forgotten Promise of Love, Freedom, Unity, Peace and Victory to the many races and species of Earth.

The Teachings of Keytontic Science

The Teachings of Keytontic Science are a spiritual/science research and development organization sponsored by Azurite Press of the Macchabedee Clowster Emerald Order. The Teachings are dedicated to the accumulation and practical application of knowledge pertaining to 15-Dimensional Physics and the study of advanced inter-dimensional vibrational mechanics known as Keytontic Morphogenetic Science. The foundations of our work are built upon the principles of the Star-Step Creation and Perpetual Motion Universe Models of Cosmological Order. These advanced models of cosmic order reflect an understanding that all things exist within and are perpetually sustained by a common eternal centralized Source of creation & perpetual energy supply. Within this eternal Source exists a fixed ordered structure of sets of 15-Dimensional Universe systems that are divided into 5 sets of 3-dimensional systems known as Harmonic Universes. All universes are understood to exist within the same space and are not subject to various degrees of dimensionalized matter to arise matter density levels and possess different angular rotation of particle spin thereby existing simultaneously co-existing multi-dimensional reality systems visible to each other within the paradigm of the harmonic fabric. Inverse it is further recognized that the energetic substance of which the eternal Source is composed is manifest in discrete units with Axi-J- dimensional harmonic sets of consciousness enter manifestation in the form of infinitely subdivided Scalar Grids or constructs of consciousness light sound & electromagnetic energy that form fixed points of vibration which form a geometrically arranged Crystalline Matrix of Consciousness and a Morphogenetic Field. This identity can perpetually experience itself in individual material forms through projection of its consciousness into the holographic structure of dimensionized Morphogenetic Fields.

Through the understanding of the Perpetual Motion Universe and 15-Dimensional Morphogenetic Field structure the model of Star-Step Creation emerges within which it is understood that all things are composed of the units of the consciousness of Source or soul eternally reside within Source and experience individuation of density and manifestation of form through a progressive expansion and projection into dimensionized gestalts of consciousness. Individuation from Source represents knowing density form into smaller gestalt packages with the dimensional scale and thus a return to Source constitutes a re-assembly of progressive levels of dimensionized gestalt identity through sequentially merging the dimensionized stage grids of the Crystalline Morphogenetic Field that form the units of gestalt identity. Merging the dimensionized levels of gestalt identity enables a sequential expansion of consciousness back into its original Axi-J-harmonic resonance consciousness through which the process of progressive matter transmutation, deconstruction, and ascension upward through the dimensional scale is achieved. Within this reality model existing paradigms of science, psychology and spirituality are fully brought together revealing the dynamic relationships between matter, mind, spirit and Source. Keytontic Morphogenetic Science, the science of Light, Sound and the Crystalline Geometrical Templates of Matter, represents the study and application of the intrinsic morphogenetic dynamics of creation.

As Keytontic Science deals with the parameters of the templates upon which the material hologram is built, it holds the key to understanding and mastering all aspects of time, space, matter and consciousness. Keytontic Science provides us with the tools and knowledge through which we can become consciously aware of our evolutionary process, both spiritually and physically, for the morphogenetic field template creates and regulates our operable biological genetic code via the DNA. The study of Keytontic Science will reveal to us the true structure of our multi-dimensional anatomy and the means by which we can expand our awareness and liberate our DNA, thereby beyond the limitations of 3-dimensional reality as we are aware from the hologram of our genetically imposed mortality to reclaim our eternal nature and finally re-enter the space-time matter fields of higher evolution and beyond.

The teachings of Keytontic Morphogenetic Science, the Perpetual Motion Universe 15-Dimensional Structure and Star-Step Creation were taught on Earth long ago, in advanced pre-ancient cultures. Portions of these teachings were primarily contained within the Bible and Torah and were part of every true religious doctrine from the most ancient of times. These are the teachings of the Macchabedee Clowster Emerald Order which span the structure of dimensionality to provide a key to the central Source of creation. These teachings were actively applied within ancient Egyptian, Greek, Christian, Islamic, Hindu, Buddhist, and Jewish mystical schools to assist humanity in the processes of inter-dimensional evolution and ascension. These teachings have been lost to humanity for many thousands of years and are now re-emerging, so we may reclaim the truth of our heritage and begin to direct the course of our Conscious Bio-Spiritual Evolution.

Bio-Spiritual Evolution

The term Bio-Spiritual Evolution refers to the true, natural evolutionary process of all life forms by which the multi-dimensional consciousness (spirit) and the genetic code (body form or organic physical structure) grow and evolve simultaneously. In terms of human evolution Bio-Spiritual Evolution is the natural process by which the DNA expands to prepare the physical body to hold progressively higher frequency bands and corresponding levels of conscious awareness. The human DNA imprint has been functioning below its capacity for thousands of years which has served to hinder the intended processes of higher identity embodiment through which the conscious awareness would naturally expand into multidimensionality. Using Keytonic Science the function of the human DNA imprint can be progressively restored, allowing the natural dynamics of Soul, Over Soul and Avatar level identity embodiment to commence. The morphogenetic (energetic template, imprint) of the DNA is progressively expanded through drawing frequency in from the dimensional limited fields of energy that surround the body. If certain structures in the morphogenetic field are rendered inoperable (as they have been in the human gene code) the morphogenetic field is blocked and can process only a limited frequency range. The morphogenetic DNA imprint controls what DNA functions will physically manifest, and so morphogenetic blockages result in the physical DNA, body and consciousness functioning at a lower capacity than is the natural potential.

Keytonic Science can be used to correct morphogenetic field distortions that serve to block the natural process of frequency accretion and DNA/consciousness expansion. As the natural pattern of the morphogenetic field is restored, missing frequency accretes in the morphogenetic field. Dominant aspects of the DNA & RNA come to life, the "junk DNA" fragments in the cells begin to re-order and the manifest DNA expands its operational coding. As the physical DNA expands its potentials, dormant areas of the brain slowly come on-line. The pineal gland begins to activate, rendering the functions of the metabolic and glandular systems. New neuro passageways, nerve endings and brain chemical combinations develop. The body is progressively able to house higher dimensional aspects of consciousness and the embodied identity is progressively enabled to perceive and participate in action taking place in higher dimensional fields. Eventually the cellular structure transmutes into a less dense form of matter, the chromosome number increases, and the biological carbons transmute into Silica, transforming the human biology into a more highly evolved biological form which can move through various dimensional fields as well.

The human genetic imprint was originally designed to hold 12 dimensions of consciousness - the embodiment of a full Avatar identity - as was exemplified 2600 years ago by Jeshua Meshuzadeh (Jesus Sananda). The original human genetic imprint is called the Silicate Matrix or the Diamond Sun DNA Code, it is designed to manifest 12 strands of operable DNA, which allows for perception and embodiment of, and bodily transmutation transmigration through, 12 dimensional fields and their corresponding levels of matter density. The Silicate Matrix is the hidden evolutionary potential that presently lies dormant within the human genome. The Bio-Spiritual Evolution programs presented by the Meshuzadeh Claster are intended to assist humanity in reclaiming its birthright of the Silicate Matrix through which accelerated Spiritual evolution (evolution of multi dimensional consciousness) and its corresponding advancement of biological evolution can be achieved.

Contemporary science does not comprehend the dynamics of morphogenetic fields and thus does not yet understand the intimate connection between consciousness, DNA and the bodily condition. A popular misconception in the scientific arena is that consciousness is formed by the structure, form and thus ceases to exist at the death of the physical brain. This assumption simply illustrates that contemporary science remains ignorant to the knowledge of morphogenetic fields and multidimensional reality structure. This assumption creates a misinterpretation of available data through which manifest symptoms (the brain), are mistaken as the cause (consciousness). Science knows that "energy cannot be created or destroyed, it only changes form". What is not yet recognized by science is that consciousness is energy and all energy is conscious. When this fact is understood the eternal nature of conscious identity will be comprehended. The evolutionary expansion or degression of body and spirit are inseparable, taking place simultaneously and in direct correspondence to each other, through the natural process of Bio-Spiritual Evolution. When both science and religion evolve to understand this truth there will no longer be division between these paradigms of belief.

Keylontic Science Mechanics

Keylontic Mechanics is a multi-dimensional science that utilizes the natural laws of dimensional creation. It is the Science of Light, Sound, the Sub-conscious, Symbol Codes and the Base Codes of Matter. In Keylontic Science technique, the blueprints for manifestation are guided and directed in a higher order through directly influencing the morphogenetic templates upon which manifest forms and events are created. Keylontic Science is the science of multi-dimensional Morphogenetic Fields – the science and art of consciousness and creation. The primary tools of Keylontic Science are the inter-dimensional light, sound, electro-magnetic and scalar wave spectra and the scalar fields, standing electro-tonal wave grids, of which morphogenetic fields are composed. Keylontic Science uses specific scalar templates to interact directly with the movement and structure of energy within morphogenetic fields. The scalar templates of Keylontic Science are called Geomancies and Geomantic Codes.

A Geomancy is a specific pattern of internal light, electricity and sound vibration/frequency, used in the mental direction of energy through the human morphogenetic field. This pattern of light/sound represents a specific scalar wave template, but, none specific electro-tonal units of sound frequency that are moved with multi-dimensional electrical current. The Geomancy serves as a wave guide and manifestator template for energy movement within the human morphogenetic field. Geomancy Control Codes are wave guides that direct the focus and manifestation of wave spectra within each dimensional field in the 15 Dimensional Spectrum. Each dimension has many subsidiary Geomantic Control Codes and one Primary Geomancy Control Code through which the frequency wave patterns of that dimension can be contoured and directed through the human morphogenetic field in order to create desired results within the blueprints for matter manifestation. Through using the Primary Geomancy Control Codes the blueprints of consciousness and matter manifestation can be directly influenced and re-aligned with the higher identity structure and path of higher evolution.

In greater terms, the Geomancies also represent stations of dimensionalized consciousness, portions of living, multi-dimensional intelligence containing vast amounts of condensed information and knowledge. All morphogenetic fields, including that of the human body and density, are built upon complex arrangements of Geomantic Intelligence. It is through the Geomantic Intelligence that the morphogenetic structure of man's identity perpetually receives its structural integrity and its impetus for expansion and evolution. Geomantic Intelligence perpetually connects all manifested forms to the consciousness of the Central Source of Creation, or God, and through interacting directly with the Geomantic Intelligence, one can become a conscious co-creator with Source-God. Humans are intended to become receptive co-creators within the Universal scheme. Working consciously with Keylontic Science Exercises and the Geomancy Control Codes (and the condensed information and cognition the Geomancies contain) expedites the process of human spiritual integration and evolution of consciousness and biology. Through the Geomancies, humans can begin to participate consciously in the creation of morphogenetic fields – the templates of creation upon which matter and event manifest.

Keylontic Science Technique

In Keylontic Science technique, Primary Geomancy Control Codes and multi-dimensional light, sound and scalar spectra are used to realign the human body and DNA with the identity structure of the Soul and the higher aspects of multi-dimensional identity. The realignment of biology and multi-dimensional identity accelerates the process of awakening higher consciousness and perception. Through preparing the neurological structure and body to hold the faster moving wave spectra of the higher-dimensional identity levels, the experiential realities of higher dimensional reality fields open to human perception and cognition.

Each Keylontic Science technique offered in the Tangible Structure of the Soul Program utilizes the intrinsic dynamics of morphogenetic field operation and is geared toward developing, activating and expanding a specific aspect of the neurological structure, dormant DNA codes and higher dimensional levels of consciousness. Keylontic Science techniques are intended to rapidly expedite the personal process of Bio-Spiritual Evolution. Keylontic Science theory is built upon an extensive

knowledge of *15-Dimensional Harmonic Physics*, and an in-depth understanding of the multi-dimensional morphogenetic fields through which human consciousness manifests. Even if one does not consciously possess an understanding of the complexities of consciousness and creation, Keylonic Science technique can be easily employed to advance personal Bio-Spiritual Evolution. Each technique will produce subtle but definite expansion within the neurological structure, DNA, and conscious awareness, gently leading one forward toward the expanded perception and cognition characteristic of true spiritual enlightenment.

Crystal Matrices, Morphogenetic Fields and Keylontic Science

1. **Partiki, Partika and Particles:**
Smallest units of energy-substance.
Electro-tonal units of consciousness
that are the building blocks of
morphogenetic fields, matter and
individualized conscious identity.
Operate as minute, perpetual
motion fusion/fusion generators.

3. Partiki units continue to group or
accrete upon the Partiki Grids, forming
A. **Keylons** - crystallizations of "frozen
light" (standing scalar wave patterns and
fixed points of tonal frequency), and
B. **Keylont Codes** - complex groupings of
Keylons, which together form a crystalline
template of light spectra, sound frequency and
electro-magnetism that is the morphogenetic
field Crystal Body - the Blueprint upon which
matter and identity will manifest.

2. **Partiki Grids:** The fabric of
morphogenetic field structure.
Partiki units group to form
Interwoven Strands, then Grids
of electro-tonal substance, out of
which morphogenetic fields are
fashioned. Out of a Unified Field
of Partiki units, Partiki Grids form to
create the frequency bands that make
up dimensional fields and then to form
individualized morphogenetic fields.

4. **Fire Letters:** Light-Symbol Codes that
represent the electro-tonal programs of Keylons.

5. **Geomancies:** Composite Fire Letter
Light-Symbol Control Codes that represent the
electro-tonal programs of Keylont Codes, which
are used to direct the Fire Letters/ Keylons,
and the flow of energy through the
morphogenetic field Crystal Body.

Morphogenetic Fields govern the form of matter manifestation and evolution of consciousness. Keylontic is the science of morphogenetic field mechanics and thus holds the key to physical reality and biological and spiritual evolution.

The D-5 Archetype Identity

1. The HU-2 Alpha Hova body (Soul Matrix ID) holds the original electro-tonal template for the HU-1 Nada Hova body (Incarnate body and ID). Disease within the incarnate body results from misalignments between the electro-tonal programs of the Alpha Hova and Nada Hova bodies. Some of these misalignments are carried in the DNA and cannot be realigned without Crystal Body reprograming, but many imbalances and dis-ease conditions in the physical body can be corrected by imprinting the Nada Hova body with the corrected electro-tonal program of the Alpha Hova body. Acceleration of healing, DNA activation and spiritual evolution can be accomplished through using the Alpha Hova body to realign the Nada Hova body via Imprinting.
2. Within the 12 dimensions of human biological morphogenetic structure certain dimensional bands direct the function of other dimensional bands. The Geomancies and Fire Letters of these controlling dimensional bands govern the operation of the Crystal Body morphogenetic field. Each Hova body has a control center - the portion of its grid that contains the frequencies of a controlling dimensional band. The Alpha Hova (Soul Matrix) body control center is the 5th dimensional Partiki grid - the station of identity corresponding to the D-5 grid is the Archetype. The D-5 Archetype is the control center for the Soul Matrix and Alpha Hova body. The Control Center for the Nada Hova body is the 2nd dimensional Partiki grid - the station of identity corresponding to the D-2 grid is the Instinctual-Emotional field.

The 15-Chakra System

15 Chakras and 15 Star Crystal Seals Placement Chart

Seven Primary Chakras (C)

- C1 Base
- C2 Sacral
- C3 Solar Plexus
- C4 Heart
- C5 Throat-Thyroid
- C6 3rd Eye-Pituitary
- C7 Crown-Pineal

Eight Morphogenetic

Chakras (MC) presently dormant

The 8 Hova Bodies and Stations of Identity.

The 8 Hova Bodies & Corresponding Identity Stations. Hovas 1-5 are the Arise Bodies. Hovas 6-8 are the Yasea Bodies.

The word *Hova* means a *Triadic Harmonic Light* (scalar wave).

Sound (tional frequency) Grid (morphogenetic Particle grid).

1. Nada Hova - Its incarnate ID (Tauronic Body)

(Subconscious, Instinctual & Reasoning Minds)

2. Alpha Hova - Soul Matrix ID (Doradic Body)

(Astral, Archetype & Angelic Minds)

3. Beta Hova - Overous Alpha ID (Metatronic Body)

(Etheric, Monadic & Kernalic Minds)

4. Gamma Hova - Avatar Matrix ID (Hydronic Body)

(Christic, Eudemonic & Nirvanic Minds)

5. Delta Hova - Rishi Matrix ID (Neutronic Body)

(Universal Conscious Mind)

6. Tanotra Hova - ~~Chromatide~~ Trinity Matrix ID (MereKodak Body)

(Ascended Master Level - 1, YamasaiGod Mind-1)

7. Di-omni Hova - RishiA Matrix ID (SughrudatAa Body)

(Ascended Master Level-2, YamasaiGod Mind-2)

8. Prima Hova - Eckar Matrix ID (Eckar-Ba Body)

(Ascended Master Level-3, YamasaiGod At-one-ment)

Personal Spiritual evolution is the process of progressively expanding the personality to embody the higher stations of identity and the morphogenetic Crystal Body. Through this process At-one-ment with our spiritual identity & God Consciousness is achieved. Integration of the higher identity progressively changes the nature of the biological form, so biological & spiritual evolution are one. Originally identity integration took place through one immortal lifetime. Due to morphogenetic field distortions the process now takes place through successive reincarnations. Reincarnation was not the natural evolutionary process of the original human lineage, but it has been operational for over 5 million years. Through Keyonic Morphogenetic Science and the Silicate Matrix Crystal Gene we can reclaim our immortal bodies and re-enter our natural state of evolution.

The Interwoven Body-Mind-Spirit System

1. The 12 DNA strands of the Silicate Matrix correspond to the frequency bands of 12 of the 15 dimensions within one 15-Dimensional Matrix.

2. The 5 Arise-Hova Bodies correspond to the 5 Harmonic Universes of one 15-Dimensional Matrix within the Time Matrix.

The 3 Yasea-Hova Bodies correspond to the 3 Levels of the Energy Matrix. (Triadic Level = Tanotra Hova, Polarity Level = Di-omni Hova, Eckaric Level = Prima Hova.)

15 Chakras, and 5 Sections and 15 Levels of the Bio-energetic Field: 5 Harmonic Universes = 5 Bio-energetic Field Sections = 5 Arise-Hova Bodies = 5 sets of 3 dimensions and 5 sets of 3 Chakras. 15 Dimensions = 15 Bio-energetic Field Levels = 15 Chakras

Cosmic Identity Structure = 8 stations of identity, 5 within the Time Matrix and 3 within the Energy Matrix.

Through understanding the foundation structures upon which the body and consciousness are built we can learn to consciously direct the path of and accelerate our personal biological and spiritual evolution.

Raising the Frequency of Foods with Keylonta

In ancient times the ritual of blessing foods was quite common. This practice is more than simply showing gratitude for one's bounty. Originally the food blessings were used to increase the quality and life force energy within the foods themselves, by transmitting higher dimensional wave spectra into the foods via specific word-sound patterns and the secondary Chakras in the palms. The true mechanics of this ritual have long been forgotten, leaving simply an attitudinal gesture where once was Keylontic Science energy dynamic. The true art of food blessing can be rediscovered using simple techniques such as the one below

Astral Infusion

- 1 Sit for a moment with eyes closed and inhale slowly while visualizing the air-energy from the breath collecting in the 4th Heart Chakra.
- 2 Exhale while visualizing the air-energy expanding within the Heart Chakra, filling the Chakra with light.
- 3 Take 3 more slow deliberate inhale-collecting – exhale-expanding breaths until the Heart Chakra is imagined to be overflowing with White Light.
- 4 Place hands over food item and on the final inhale draw golden energy downward from the 7th Crown Chakra into the 4th Heart Chakra, turning the Heart Chakra energies to golden light.
- 5 On the exhale push the energies from the Heart Chakra down through the arms, into the palms and out the palm chakras directly onto the foods.
- 6 As you continue to breathe energy down from the Heart Chakra repeat the following word-sound statement: "I bless this food with the power of the Holy Spirit" Imagine golden light entering into the food item, turning all of its molecules to golden light.
- 7 Repeat the verbal blessing while using the breath to guide the energies from the Heart Chakra until all of the golden light in the Heart Chakra has dissipated. Close blessing with statement: "And so it is" or "Amen"

This exercise infuses the food item with 8th-dimensional frequency (golden light) via the 4th-dimensional astral level of the food's bio-energetic body (accessed through the 4th-dimensional Heart Chakra).

Kathara Toning Exercise

The Ar- E- a Khum -Nar' A

The Song of Orion

Verse 1 OMA Da E, Patum ah
OMA Da E, Patum ah
Patum ah A' DE E - Tah, A khum-na
OM A Da E, Patum ah

Verse 2: TrA TE La E' Durum Na
TrA TE La E' Durum Na
Durum' ah A' Khern - Tah, A khum-na
OMA Da E, Patum ah

Because Morphogenetic Fields are scalar grids that are built upon minute patterns of light, sound and electro-magnetism, they are directly affected by light, sound and electro-magnetism. When we understand the nature of Morphogenetic Fields and the personal Crystal Body Morphogenetic Field through which we manifest, we begin to realize the power each individual possesses to directly affect conditions within the body-mind-spirit system. Each thought we think creates an electro-magnetic signature of energy within the morphogenetic field, which either serves to raise or lower the vibrational rate of the body and consciousness. Like thought, qualities of externalized sound, light, electro-magnetism and vibration also directly affect the morphogenetic field. In our culture we tend to take sound for granted, never really considering the power that exists within the wave spectra we perceive as sound. Each day we are saturated with sounds from our environment and also from the inner sounds of our own thoughts and emotive reactions. There is much power in thought and within the spoken word, for these attributes of our consciousness have the power to create morphogenetic field alterations. This Exercise and the 2 that follow are applications of morphogenetic field technology. Using specific affirmative word combinations, such as in the practice of Affirmations, or specific sound-tone combinations, such as in Toning, we use our power of sound to create healing and accelerate evolution, through directly setting "sound grids" within the Crystal Body. This exercise – *The Ar-E-a Khum- Nar' A* is an ancient sound-tone program that was used in ancient Essene, Egyptian, Sumerian, Atlantean and Lemurian Ascension Schools to Stimulate the 8th DNA strand into activation for acceleration of the Soul/ Over-Soul Embodiment Process and to begin the process of activating the Kee-Ra-Sha (universal energies). Repetition of this toning builds a powerful thrust of 8th-Dimensional frequency within the morphogenetic field, which accelerates and realigns the lower dimensional frequencies within the DNA, chakra system and Auric Field. Used regularly as a mantra, the "Song of Orion" is a powerful tool for spiritual awakening and transformation.

* 'AM' word programs are powerful electro-magnetic programs within the Morphogenetic Crystal Body Word patterns can serve to help you evolve and awaken or impede this process. The most powerful times for setting Crystal Body Programming Grids is just prior to sleep and just after awakening. The following exercise provides a very powerful morphogenetic programming grid to assist you in accelerating spiritual evolution and multi-dimensional identity integration, while building up multi-dimensional protection grids that will help reverse the polarity of negative or harmful programming grids.

I AM ONE with the Cosmic Mind

I AM held gently, at all times, within the love of the Original ONE – the true God of Creation

I AM strong & resolute in my calling. I hear the call of my sacred Original-Divine-Self, my God-Self, leading me home

I AM clear of mind & vision as the knowing of my God-Self flows through me at all times.

I AM in this moment fully embraced by my God-Self and its connection to the Original God.

I AM at peace in the face of anger. **I AM** calm in the face of chaos.

I AM filled with the growing essence of Divine love through which **AM** healed.

I AM the vessel for Original Truth and Wisdom. **I AM** the conduit for Original Love

I AM the living expression of the Sacred Law of One.

I AM Harmless yet powerful. **AM** humble yet knowing.

I AM the expression of eternal love, light, truth and power. I carry the will of the Original ONE through al. of my moments, allowing the Divine to touch others through me

I AM Whole NOW. I AM Peace NOW. I AM Wisdom NOW. I AM Divine Love NOW

And So IT IS

Repetition of this tonal manifestation grid for a period of 3 consecutive weeks, repeated out loud once in the morning upon waking and once prior to evening sleep will create a powerful, grid-shifting program that will assist directly in the Spiritual Integration process.

Supplementary *The I-AM Prayer*
Exercise

*This Prayer can be used in the form of a spoken Affirmation or rendered in song
The energy signature of the words creates a powerful morphogenetic
manifestation grid. This grid will assist in accelerating the activation of Silicate
Matrix DNA codes to create a pure and rapid connection between the multi-
dimensional levels of identity.*

Verse 1:

I AM a child of the Original ONE
I AM a Ray of the Original Sun
I AM Wholeness, I AM Love

I AM the Truth that spans the sands of time
I AM the Rainbow of the very first Shine
I Am Music, I AM Light

Chorus 1:

Let the LIGHT descend upon me, guide the way with Golden Light.
No other god will stand before me, as I embrace the One True Life. .
I was born to live by the will of the Original ONE.

Verse 2:

I AM a face of the Original GOD
I AM a voice of the Original Sound,
I AM a wave upon the Ocean of Eternal Light.

Chorus 2:

I reach my arms up to the heavens .
Sing .. I AM – THAT – I AM
The Presence of the ANCIENT ONE
Springs forth at my command...
I AM ONE WITH GOD. ..
I AM THAT I AM

*AND SO IT IS...
In the many mansions of the sacred House of ONE.*

*Glossary
and
Course-1 Audio
Tape Descriptions*

Alpha Nova Body The 3-dimensional, tri-tonal scalar grid within the anatomy of the multi-dimensional human morphogenetic field that corresponds to Harmonic Universe-2 and DNA Strands 4 & 6, houses the awareness of the Soul Matrix Identity and contains the Astral Mind of the 4th Dimension, the Archetype Mind of the 5th-Dimension and the Angelic Mind of the 6th-Dimension. The Alpha Nova body contains the morphogenetic imprint, conscious awareness and Kee-Ra-Sha energy for 2 cycles of 12 semi-stere matter soul manifestations in Harmonic Universe-2 and serves to link the consciousness of each Soul to its parallel anti-particle double in parallel harmonic Universe-2. The Alpha Nova body holds the mercury matrix of the 1st body's Harmonic Universe-2 Soul manifestations, the memory of the Kade Nova Body and the Raw Mercury Record. Merger of the Alpha Nova Body with the Kade Nova body of the incarnate identity constitutes Soul Integration, the state of cognitive expansion within which one begins to develop Multivector Consciousness (the embodied awareness becomes able to simultaneously perceive and interact with multiple space-time coordinates and more than a singular time continuum), and achieves extraterrestrial and full on-time reincarnational memory through activation of DNA strands 4 & 6. The Alpha Nova Body corresponds to chakras and auric field levels 4, 5 and 6, to the 2nd of 3 Kee-Ra-Sha (Kundalini) Spirals at the base of the spine and to the 2nd of 3 Frequency Seeds on the Pineal Gland, which regulates the activation of the Hallel Phase Merkaba Vehicle.

Archetype The Archetype Identity is the portion of the multi-dimensional mind that corresponds to the 6th Dimension, the center of the Soul Matrix and Alpha Nova Body. The Soul Matrix is a 3-dimensional scalar grid (a Nova Body) that houses the Soul Gestalt Identity in dimensions 4, 5 and 6, Harmonic Universe-2. The Archetype Identity of D-5 is the central control consciousness for the Soul Matrix-Alpha Nova Body. The first level of higher identity integration is called soul integration, the process by which the Alpha Nova Body of the Soul Identity merges through the two energetic field and DNA, with the Kade Nova Body of the incarnate identity. Through Anchoring the Archetype, to expedite the process of Soul Integration, the scalar grid of the 5th-Dimensional Archetype Identity is progressively brought into merger with the 2nd-Dimensional Emotional Body, which releases distortions in the 5th-Dimensional Astral Body, 3rd-Dimensional Mental Body and 2nd-Dimensional Emotional Body, as the 5th-Dimensional Archetype frequencies move through the scalar grids, chakras and DNA strands corresponding to the 4th, 3rd and 2nd-Dimensional morphogenetic field. Anchoring the Archetype imprints the personal morphogenetic field with the realigned template for DNA strands 1-6 within. Activating the Archetype begins the process of manifesting DNA strands 1-6 within the operational gene code, once they have been realigned through the Anchoring process, allowing a progressive embodiment and consciousness awakening of the Soul Matrix Identity within the incarnate identity. As distortions in the incarnate's Kade Nova Body (dimensions 1, 2 and 3) are purged by entry of the 6th dimensional Archetype frequencies, the process of merging the Soul's Alpha Nova Body (dimensions 4, 5 and 6), with the Kade Nova Body is accelerated. This begins merger of the 1st-Dimensional Etheric Body (and Body Consciousness) with the 4th Dimensional Astral Body and Consciousness, and the 5th Dimensional Angelic Body and Consciousness with the 3rd-Dimensional Mental Body and Consciousness. Full Soul Integration (merger of the incarnate's Kade Nova body with the Alpha Nova Body of the Soul Matrix) expands the incarnate identity from a 3-dimensional consciousness to a 6-dimensional consciousness, activating dormant DNA strands 4-6, through which the incarnate becomes a fully embodied Soul. A fully embodied Soul has a 6-Dimensional perceptual field, a progressively expanding reincarnational memory and is capable of experiencing clairvoyance, clairaudience and conscious astral projection in 6 dimensions, and bi-location in 2 Harmonic Universes through entering Hallel Phase Merkaba, once these skills have been honed.

Ascended Master A term that is highly misused within the contemporary New Age movement, particularly by 4th-Dimensional disincarnate collectives who descend with Earth humans from the D-4 Astral planes, calling themselves by this term, when in fact such D-4 groups are hardly more advanced than Earth humans in the evolution toward ascended mastery. True Ascended Masters are not identities who have progressed in partial ascension within the dimensional scales of the Time Matrix. An Ascended Master is a highly evolved Jila-terrestrial gestalt of consciousness, in pure anti-matter wave form, that exists beyond the dimensionalization of the Time Matrix, within the 3 levels of the non-dimensional and Energy Matrix. Though all beings in time originally began their journey of individuation through such an Jila-terrestrial collective, and thus each being has, as part of its higher identity anatomy, 3 levels of ascended mastery consciousness, a being within the Time Matrix is not considered to be the embodiment of an Ascended Master unless the being has experienced a full projection into the Time Matrix and a

full 15-Dimensional ascension back out of the Time Matrix before returning to manifest form within time. Such criteria for ascended mastery is used because a being entering manifest form within the Time Matrix for the first time experiences a fragmentation of its geometrical morphogenetic field as it enters dimensionalization. This fragmentation of the geometrical structures of the morphogenetic field occurs only if a being is able to attain a number of incarnations with its ascended mastery identity levels. (In the first projection into time, the morphogenetic field is fragmented thus temporarily severing the conduit of communication between the manifest identities and the ascended mastery identity.)

As a being proceeds to evolve within the dimensions of the Time Matrix, the geometrical structures of the morphogenetic field progressively reassemble, re-creating the conduit of communication through first the dimensionalized identity levels, then finally with the ascended mastery identity levels (ascended time) when the consciousness has merged its 5-dimensionalized Holographic Bodies and transmutated into the pre-matter-dark state of being. Through this first evolution, the morphogenetic waves (scalar wave patterns) of the entire 15-Dimensional Matrix become embodied within the being's morphogenetic field and these codes will remain as the consciousness leaves the Time Matrix to return to a multi-lifetime collective. When an ascended being chooses to re-enter the Time Matrix for incarnation, the morphogenetic codes collected in its first incarnation in time will remain, and upon the second projection these "codes of ascension" or "Cap Stone Codes" will be infused within the morphogenetic parts of the dimensionalized identity aspects where they were manifested as coherent pulse fields within the physical periodic code of the intermediate and soul bodies in Harmonic Universe 1 and 2. Only incarnations who possess the Cap Stone Codes within the DNA imprint, in the present life time, possess the genetic ability to translate the ascended mastery levels of consciousness through the embodied gene code. Thus only beings that have achieved full ascension and then returned to incarnation are considered to be true embodiments of Ascended Masters. Right Avestar Souls and Over Souls, though at transcendent levels of identity, do not qualify as true Ascended Masters, unless their gestalt of consciousness has fully completed at least one full cycle of ascension/descent. The term "Ascended Master" thus refers to the Ultra-terrestrial Consciousness collectives beyond time in the Energy Matrix, or to manifest incarnations of these collectives that are born of a consciousness gestalt that has fulfilled ascension and then returned to carry the Cap Stone Codes within the morphogenetic field and genetic imprint.

The Ascended Master is also the level of Ultra-terrestrial personal identity that corresponds to the Seal 3 of 3 Holographic Bodies, the Yuseite Holographic Bodies, within the morphogenetic anatomy of the human. The Yuseite Holographic Bodies correspond to the atomic gestalt identity levels saturated within the 3 non-dimensionalized levels of the Energy Matrix: the Geometric Field identity of the Triadic Level, the Plasma identity of the Pleric Level and the Electromagnetic identity of the Etheric Level. Though as humans are not able to fully embody their ascended mastery levels of identity in the current lifetime, they can accelerate the process of first ascension by working consciously to merge the 5 dimensionalized Holographic Bodies, the Aries Holographic Bodies, for soul and over-soul integration while physically incarnate. Following the end of the current life they may be able to fulfill Avestar and Over-Soul integration to fulfill the first ascension. If first ascension is achieved in the present life-death cycle, the identity will have the choice of returning to incarnate as an Ascended Master, carrying the Cap Stone Codes, as the next life experience. Working to connect with the ascended mastery identity levels in this lifetime begins the process of aligning the 3 Holographic Body scalar grids in time, with the 3 Holographic Bodies beyond time, allowing the high cognition of the ascended mastery levels of personal conscious awareness to progressively serve as a guiding influence within the current incarnation, which offers the opportunity for more rapid and harmonious life-spiritual evolution. Ascended Masters can access the 7th, 8th, Pleric, and Ecliptic Quantum Memory Records. Ascended Masters are called "omni-dimensional consummate 5th-degree ministers." Triadic and Pleric Level integration or Ecliptic (5th-degree ministers Ecliptic Level integration in the Melchizedek Cluster Ordination Prayer).

Avestar: The Avestar identity is the portion of the multi-dimensional identity that corresponds to the Mahara Holographic Body of Harmonic Universe 4, contains the Christic Mind of the 10th Dimension, the Buddhistic Mind of the 11th Dimension and the Nirvanic Mind of the 12th Dimension and exists in a Pre-matter Liquid Light state of density. The Avestar identity also represents the 12-dimensional scale of cognitive expansion and experience with all activation of the 12 DNA strands of the Solar Matrix genetic imprint. It is the highest level of awareness that can be embodied within a physical human form. The Avestar is a gestalt of Meta-temporal consciousness, which includes all incarnational identity aspects positioned within the ultra-dimensions. When it is fully integrated as a part of the Avestar identity, the perception of time, space and matter changes to a 12-dimensional spectrum of Multi-vector Consciousness. Multi-vector Consciousness represents simultaneous perception of a co-existence with numerous incarnational, 4th and 5th Over-Soul densities within various space-time positions in the Time Matrix. The Mahara Holographic Body scalar grid of the Avestar identity connects the Etheric matter Over-Soul Matrix of Harmonic Universe 1 (Below Holographic Body dimensions 7-5) with the Anti-matter Right identity in Harmonic Universe 5 (Above Holographic Body dimensions

13-15: This term is also used to describe human or discarnate consciousness that possesses 7-12 dimensions of conscious awareness, but only those with 10-12 dimensions of consciousness are considered true Avatars. Though all human incarnates are connected to a gestalt of higher dimensional consciousness that includes the Avatar Identity level, not all incarnates can fully embody the 12-dimensions of consciousness in one lifetime. The bio-energetic tier of a fully embodied Avatar transmits a massive spectrum of inter-dimensional electro-magnetic and sound waves. If too many 7-dimensional Avatars entered the Earth system at one time the morphogenetic field of the planet would over-load with frequency causing planetary implosion. Thus true Avatar embodiments are the result of a limited number of Contract Agreements made between a consciousness manifesting in incarnate form Harmonic Universe 4 (most consciousness incarnates form Harmonic Universes 1 and 2) and the Harmonic Universe 5 Matrix gestalts of consciousness who watch over human evolutionary cycles (often called the "Councils of Light"). True Avatars can incarnate only through very specific gene code configurations, which allow for the formation of a total pattern that can hold higher-dimensional frequencies of energy + frequency Avatars do not awaken to their full identity / full embodiment of Avatar awareness until age 0-12 strand DNA activation, until well into adulthood. Awakening of Avatars is synchronized with the raising of vibration within the planetary morphogenetic field, most evident in stages as the planetary vibration rises. Avatar contracts always involve some form of work that affects the evolution of the masses. Even though most human incarnates do not possess Contracts for full Avatar embodiment, many hold Over-Soul Integration Contracts and are capable of expanding the consciousness into Over-Soul embodiment through merger of the Nada, Agha and Botcha Hova Bodies and activation of DNA strands 7-9. Once Over-Soul embodiment is achieved one can open to receive information from their Avatar identity and Rahe identity levels, which is not the same thing as full biological embodiment of the level, but still provides a transcendent state of awareness. The Avatar identity represents the true meaning of "Christed Consciousness". One attaining this level of integration is capable of entering Mahanta Phase Merkaba for full biological transmutation abilities within 4 Harmonic Universes (ascending or descending through the 12-dimensional scale of will), once skill has been honed and 12 DNA strands have been activated. Avatars can access the Galactic Memory Record. Avatars are called Regents, 3rd degree Ministers, in the Melchizedek Cluster Ordinations Program.

Botcha Hova Body: The 3-dimensional, tri-axial scalar grid within the anatomy of the human multi-dimensional morphogenetic field that corresponds to Harmonic Universe-3 and DNA Strands 7-9, houses the awareness of the Over-Soul Matrix Identity and contains the Kabbalah Mind of Dimension-7, the Monadic Mind of Dimension-8 and the Karmic Mind of Dimension-9. The Botcha Hova Body contains the morphogenetic imprint, conscious awareness and Kee-Ra-Sha (Kundalin) energy for 2 cycles of 12 Ethere matter Over-Soul manifestations within Harmonic Universe-3 and serves to link the consciousness of each Over-Soul to its parallel and parallel double in parallel Harmonic Universe 3. The Botcha Hova Body holds the memory matrix of the identity's Harmonic Universe-3 manifestations, the memory contained within the lower Hova-Bodies and the Planetary Memory Record. Mergers of the Botcha Hova Body with the incarnate's Nada Hova Body constitutes Over-Soul-consciousness, the state of cognitive equilibrium within which one begins to access memory of Ethere Glider incarnations and the original entrance into the Time Matrix through activation of DNA strands 7-9. The Botcha Hova Body corresponds to chakras and auric field levels 7-9, to the 3rd of 3 Kee-Ra-Sha (Kundalin) Spirals at the base of the spine and to the 2nd of 3 Frequency Seals on the Pineal Gland, which regulates activation of the Quatre Phase Merkaba Vehicle.

Bio-Spiritual Evolution: The natural process of multi-dimensional evolution, not yet understood by contemporary science, through which the evolution and growth of the physical body form and multi-dimensional consciousness are co-dependent and intertwined through the morphogenetic field and DNA. The DNA serves as the conduit through which the multi-dimensional consciousness of the Soul, Over-Soul and Avatar identity / higher dimensional identity levels progressively embodies within physical incarnate form over the course of numerous incarnations. Through the course of each lifetime, the incarnate consciousness progressively draws into (acquires) the morphogenetic tier and DNA more of the consciousness from a higher-dimensional identity (Hova Bodies of the multi-dimensional morphogenetic field) progressively activating more elements of dormant DNA, expanding the embodied awareness and eventually creating cellular transmutation from dense matter into ante-matter wave form. When the DNA is working properly the process of higher identity embodiment (through Hova Body mergers) can occur in one extended lifetime and dimensional ascension (transmutation of body matter into pure consciousness wave form), rather than physical death and repeated incarnations is the means by which consciousness proceeds from dense matter biological reality systems into non-matter eternal reality systems. For hundreds of thousands of years the human gene code has carried mutations that impede the natural process of higher identity embodiment and

evolution through dimensional ascension, whereby physical death and repeated biological incarnation has been the necessary for identity integration to occur over many lifetimes. Through understanding the inherent nature of Bio-Spiritual Evolution, one can begin to restore the biological morphogenetic field in repeat DNA mutation, through which the natural processes of higher identity integration and embodiment, consciousness expansion, etc. (e.g., dimensionality and body dimensionality ascension) can also easily be restored. Bio-Spiritual Evolution is the process by which Raydonic Morphogenetic Science is consciously used by the Inanimate Identity to restore the morphogenetic field for rapid consciousness expansion. DNA restoration, biological transmutation and Dimensional Ascension.

Crystal Body In relation to human beings, the 8 Holographic Bodies within the anatomy of the multi-dimensional human morphogenetic field are collectively referred to as the Crystal Body. The human Crystal Body represents an 8 level ascending field that is composed of electro-magnetic ultra-micro particle units of consciousness called Partis. Partis and Particuli (these two terminologies form geometrically arranged hierarchical units and Particulus, Part are the building blocks) is template of dimensionalized light, sound and scalar waves upon which the individualized consciousness and matter substance of the physical body manifests within the varying levels of matter density in the Time and Energy Matrix. The Crystal Body is the morphogenetic field which forms as a crystalline structure of interwoven Partis units due to the jointed oscillations between the light, sound and scalar waves upon which it is built. The Partis Units of the Crystal Body form the scalar units of electro-magnetic standing wave patterns that form the structure of the Holographic Bodies, which serves to house the individualized nature of consciousness within dimensional space. The term Crystal Body is used in reference to the multi-dimensional morphogenetic field of a person, object, planet, galaxy, universe or cosmos, it contains the 8 Holographic Bodies of human anatomy that corresponding levels of mind and houses the imprint for the DNA-RNA pattern through which the biological genetic code of the physical body manifests. The Crystal Body of both biological and non-biological forms represents the geometric template upon which particles and anti-particles group to "flesh out the form in matter". The Crystal Body morphogenetic field represents the causal aspect of all manifest effects, and thus it is the level of energetic reality and consciousness through which manifestation can be directly effected. Raydonic Science techniques use Germanic geometric patterns of light, sound, electro-magnetism and scalar waves as wave pulses to alter and adjust the scalar grid of the Crystal Body to create desired beneficial effects in manifest conditions.

Dimensions Dimensions are vibrating fields of electro-magnetic scalar grids built upon specific morphogenetic field templates that exist in specific relationships to each other, which together form an energetic framework of interwoven frequency bands within which manifest reality, individualized identity, time, space and matter can be experienced by consciousness. Dimensions form a matrix of morphogenetic order called the Time Matrix, within which all manifest reality systems take place. Dimensions are structured in sets of 15 which are further ordered into groups of 3 (each set of 3 dimensions represents 1 Harmonic Universal reality system). Within a 15 Dimensional Time Matrix the vibratory oscillation rate and frequency of each dimension progressively increases from lowest to highest (1st to 15th) creating an ever dimensional scale of vibrational oscillation through which consciousness passes into manifestation. Each dimension within the scale has a specific angular vibrational movement, frequency, angular rotation of particle spin, and level of associated consciousness density levels. One Time Matrix is composed of 1 sets of 1 dimensions, or 1 Harmonic Universe, which creates 5 interwoven 3-dimensional Universal reality fields existing within different frequency ranges. Each Harmonic Universe represents a three-part scalar grid with about consciousness emerges in time in manifestation and 3 dimensional perception. Perception of external reality as a matter density is a holographic projection of consciousness through the scalar grids of the dimensionalized Harmonic Universe systems within the Time Matrix.

Each Harmonic Universe within the 15 dimensional scale addresses a central range of frequency, vibrational movement and angular rotation of particle spin, through which a progressive series of matter density levels - from pure physical matter in the lower dimensions, to pure matter pure conscious wave form in the highest dimensions - is formed. The types of biological life and consciousness that will manifest in each dimension Universe are characteristic to the associated matter density levels. The multi-dimensional structures of the Time Matrix represent the system of energy constructs through which consciousness fragments and descends in vibration to achieve manifestation and individuality, and within which embodied consciousness will then evolve through re-integrating its multi-dimensional fragments and ascending its vibration, to return to its original form of pure sentient consciousness beyond the holographic projections of space, time and matter.

All dimensions exist within the same place and flow through each other at specific intervals, but the reality fields of dimensionalized matter and consciousness appear separate and irrelative to each other due to a 4th degree difference in angular rotation of particle spin between dimensional bands and a 4th degree difference in particle spin between Harmonic Hierarchies. The dimensional collective represents a cosmic scalar grid made of standing scalar waves built upon 3rd point of sound, which form the morphogenetic template for cosmic creation. All fields (with the exception of smaller microphenetic fields) macroscopic versions of the macrocosmic dimensional scale, the field individualized consciousness within the framework of space, time and matter. Dimensions represent stations or platforms of universal consciousness, composed of fields of standing scalar waves and frequency that form the morphogenetic framework within which Bio-Spiritual Evolution of life forms takes place.

Energy Matrix: Within the morphogenetic structure of cosmic design, the Energy Matrix exists within the Consciousness Field of the Central Source of Creation (within the Monad), as a Unified Field of Energy within which the smaller dimensionalized reality fields of Time Matrices exist. The Energy Matrix represents the first area of projection into which consciousness flows as it individuates from the Monadic level of the Central Creative Source. The Energy Matrix has 3 primary levels of vibration, scalar grids built upon sound tones, that form a trinity of non-dimensionalized reality fields and gestalts of eternal consciousness awareness. The Euratic Matrix is the mid-vibration reality field and the Resonant Tone (combined Bass Tone and Over Tone) of the trinity that represents the 1st scalar grid into which consciousness will pass in its individuation from the Monad, and the 1st scalar grid through which consciousness will move in its expansion back into the Monad. The Polarc Matrix is the high vibration reality field and Over Tone of the trinity that represents the 2nd scalar grid into which consciousness will pass in its individuation from the Monad, and the 2nd scalar grid through which consciousness will move in its expansion back into the Monad. The Tonic Matrix is the low vibration reality field and Bass Tone of the trinity and represents the 3rd scalar grid into which consciousness will pass in its individuation from the Monad, and the 3rd scalar grid through which consciousness will move in its expansion out of the dimensionalized constructs of the Time Matrices. The Energy Matrix is the point at which vibrations of the consciousness of Source and its individualized gestalt God-Seeds and Monads' tonal structures of consciousness emerge into electro-tonal structures of light and electro-magnetism, lighting the morphogenetic scalar grids and setting the core morphogenetic field within which all manifest creation takes place. The Energy Matrix is considered in the macrocosmic structure of conscious energy within which smaller Universal structures take place. The 3 Yuseki Hwa Bodies of human morphogenetic structure and their 3 levels of Ascended Mastery identity (the Geometric Entity, the RishA and the Eclair) correspond to the 3 scalar grids of the Energy Matrix.

Gestalt Identity: One identity formed of many smaller identities, whose consciousness is greater than the sum of its parts. The primordial structure of identity individuation from Source as occurs within the process of Star Step Creation. In the formless of manifest being, identity gestalts are formed in exponential sets of 12 as larger gestalts of consciousness fragment themselves into smaller gestalts as they project into the levels of the Energy Matrix and dimensionalized structures of the Time Matrix. Each Soul is a gestalt identity composed of sets of 12 Avatars, each Over Soul a gestalt identity composed of sets of 12 Souls, each Avatar a gestalt identity composed of sets of 12 Over Souls, each RishA a gestalt identity composed of sets of 12 Avatars, each Geometric Entity a gestalt identity composed of sets of 12 RishA, each RishA a gestalt identity composed of sets of 12 Geometric Entities, each Eclair a gestalt identity composed of sets of 12 RishA, each Monad a gestalt identity composed of sets of 12 Eclairs, each God-Seed a gestalt identity composed of sets of 12 Monads, the Yuseki (Central Source of Creation) an infinite gestalt identity that perpetually projects sets of 12 God-Seeds into manifestation. The consciousness of every being enters creation through the process of Star Step Creation, the progressive fragmentation of Source identity into individualized gestalts of consciousness and its reciprocal accretion (drawing together) of individualized identities back through the expanding gestalts of consciousness in return to Source identity.

God-Seed: The God-Seed represents the core tonal structure out of which the morphogenetic fields of multiple Monads emerge. It is the first projection into gestalt identity that consciousness encounters when it individuates from Source consciousness. The God-Seed represents an eternal union of gestalt of identity that exists as a complex geometrically organized tonal gestalt within which infinite numbers of Monads (Cosmic Families of gestalt consciousness) and their inherent Energy and Time Matrices are created. The consciousness gestalt of the God-Seed is known as the Yuseki identity level, the "I am that I am" eternal identity that perpetually exists in a state of All-One-ness with Source. The Yuseki (Central Creative Source or 1st) creates within itself sets of 24 Primary God-Seeds. Each God-Seed progresses to create within itself sets of 12 Monads, the scalar grids of gestalt

identities or "Cosmic Families of Consciousness" that inhabit the 4 Hova Bodies and density levels of the human consciousness. Each Monad holds within her sets of 12 Energy and Time Matrices and their attendant 6 lower Hova Body structures. The God-Seed represents the Original Point of Creation for all consciousness manifesting and expressing within the Time and Energy Matrices. Every human has an etheric or astral connection in the field of universal, sentient consciousness that is the source of "reaching soft" a connection that exists as the core body structure of the God-Seed upon which the entire morphogenetic field and greater consciousness is created. Using Keytonic Science to begin consciously opening the morphogenetic field of the incarnate to the God-Seed begins simultaneously realigning the Hova Bodies of all identity levels with the Original Point of Creation. This realignment begins building a bridge of frequency (the "Pillar of Light") from the God-Seed through all of the Hova Bodies, to the incarnate, which accelerates the expansion of consciousness and process of Hova Body merger through which full ascension into At-one-ment with Source (return to the God-Seed) can occur.

Harmonic Universe: A set of 3 dimensions that exists within a greater structure of 5 Harmonic Universes, which together represent the 15-Dimensional morphogenetic field of one Time Matrix. Harmonic Universes create the dimensional unified fields within which 3-dimensional reality fields take place. All dimensions and harmonic universes take place within the same space, but each possesses its own vibratory rate and angular rotation of particles spin, thus creating a unified field of interwoven multiple universes and dimensionalized reality systems that appear invisible to each other. Each Harmonic Universe (HU) represents a stage of matter density between gross matter in the slowest vibrating harmonics and pure conscious anti-matter wave-form in the highest vibrating harmonics. Each Harmonic Universe also represents a universal time cycle that moves in synchronization with the time cycles of the other Harmonic Universes. Within each universal time cycle there are 6 primary smaller time continua which create cycles of linear time within which manifest beings evolve.

Human anatomy and identity spans the 5-Dimensional structure of the 5 Harmonic Universes in our Time Matrix. These harmonics of our identity represent the status of our consciousness as they are held within time cycles and density levels between physically manifest and non-manifest worlds. All manifest forms have a morphogenetic field that spans the 5 Harmonic Universes of the Time Matrix. Our planet is called Earth in HU-1 (dimensions 1-3 gross matter density), Tars in HU-2 (dimensions 4-6 Semi-etheric matter density) and Gae in HU-3 (dimensions 7-9 Etheric matter density). In HU-4 (dimensions 10-12) the planetary morphogenetic field exists as unstable liquid light Pre-matter and in HU-5 (dimensions 13-15) it exists as a ether grid of pure anti-matter wave form. The harmonics of human identity are also manifest within the gross matter to anti-matter density spectrum: the incarnate body in HU-1 is made of gross matter (carbon based biology), the Soul Matrix identity of HU-2 is a manifest body of fine dense Semi-etheric matter (carbon based biology), the Over-Soul Matrix identity of HU-3 is a manifest body of ghost-like Etheric matter (Source based biology), the Avatar Matrix identity of HU-4 is a fluid body of crystalline liquid light Pre-matter and the Fourth Matrix identity of HU-5 is an anti-matter scalar wave form of pure consciousness. As we evolve through our time continua we progress upward from the matter density scales and Harmonic Universe time cycles into we have survived may also exist as 1 of our incarnate status of identity and transmuted into anti-matter which constitutes composing full Dimensional Ascension. At its time we are free to leave the Time Matrix and expand into the Energy Matrix to begin integrating our 3 stations of Ascended Mastery identity.

Higher Identity: In terms of the structure of human consciousness, the Higher Identity represents the progression of levels of consciousness expansion that exist within the Time and Energy Matrices and are housed by the Hova Body scalar grids that vibrate higher than the earthly incarnate identity. Human Bio-Spiritual-evolution is the process by which the incarnate identity progressively transmutates these higher identity levels into its awareness through Hova Body merger which progressively transmutes the biological form out of matter density and the Time Matrix and returns the identity to its original form of consciousness as the God-Seed. The progression of identity levels of the human are the incarnate-the Soul Matrix-the Over-Soul Matrix-the Avatar-the Fourth-the Gauramth-the Fifth-the Sixth-the Eclat-the Monad-and the God-Seed.

Hova Bodies: Hova Bodies are vibrating bi-lateral grids of light, sound, electro-magnetic and scalar waves that form the morphogenetic field/Crystal Body of multi-dimensional human anatomy. There are 5 Arise Hova Bodies within the dimensional scale of one 15-Dimensional Time Matrix and 3 Yusea Hova Bodies within the scalar fields of the Energy Matrix. Hova Bodies are structured as sets of 6 concentric spheres of etheric, magnetic and scalar waves with the core vibrating spheres at the core that surround and permeate the human body hold the consciousness in dimensionalized levels and serve as the morphogenetic templates upon which the consciousness, Merkabah Field, DNA, auric field, chakra system, and physical body matter will manifest within the Time and Energy

Matrices: Each Nova Body houses 1 of 8 portions of human multi-dimensional identity and the corresponding 3 dimensions (2 Frequency Bands, 2 levels of mind, 3 chakras and 3 DNA strands associated with each identity level). The corresponding levels are as follows: **Time Matrix-Astral Nova Bodies:** MU-1 Harmonic Universe: gross matter density holds nova body-incarnate identity, the subconscious, instinctual mind and reasoning mind dimensions, chakras, auric field levels and DNA strands 1, 2 and 3. **MU-2:** Semi-eternal matter density: Apsis Nova Body Soul Matrix identity gestalt the astral, archetypal and egoic mind-dimensions, chakras, auric field levels and DNA strands 4, 5 and 6. **MU-3:** Ethereal matter density: Beacon Nova Body Over Soul Matrix identity gestalt the ethereal, monadic and karmic mind-dimensions, chakras, auric field levels and DNA strands 7, 8 and 9. **MU-4:** Pictorial Liquid Light: Genesis-Mentara Nova Body-Avatar identity gestalt the kineastic, Buddhist and hermetic mind-dimensions, chakras, auric field levels and DNA strands 10, 11 and 12 (highest level of identity that can embody in a human form). **MU-5:** Anti-matter wave-form density: Raja Nova Body Kish identity gestalt universal mind dimensions, chakras, auric field, levels and morphogenetic waves 13, 14 and 15. **Energy Matrix:** Tusetra Nova Bodies: Inside Matrix: Tandra Nova Body Geomantic Unity identity gestalt: Purna Matrix: Gurm's Nova Body Kish identity gestalt: Eouale Matrix: Yma Nova Body Eoual identity gestalt. Through the process of progressively merging the Nova Body levels an incarnate identity progressively expands its awareness into each higher identity level and activates the corresponding 12 DNA strands, while transmuting the body matter into progressively less dense states of matter for Dimensional Ascension.

[Incarnate]: The Incarnate Identity is the portion of the multi-dimensional identity that corresponds to the Nada Nova Body of Harmonic Universe-1, contains the Subconscious Mind (cellular consciousness) of the 1st-Dimension, the Instinctual-Intuitive-Mind (emotional body) of the 2nd-Dimension and the Rational Reasoning Mind (Material Body) of the 3rd-Dimension and exists in a gross matter state of 3-Dimensional physical matter, carbon-based biology. The incarnate identity level represents the 3 dimensional state of cognitive expansion and experiences with activation of DNA strands 1, 2 and 3 of the Nadale Matrix genetic imprint. Incarnates are created by Souls in sets of 12, forming the incarnate Matrix. Most contemporary humans are bio-energetically phase-locked into the dimensional bands of the Nadale Nova Body, due to genetic distortions in the Silicate Matrix, which manifests as Single-vector Consciousness. Single-vector Consciousness permits one to perceive and consciously interact within only one time interval while the awareness is physically embodied, and biologically blocks the translation of multi-dimensional history and experience into embodied conscious perception and cognition. The incarnate identity is limited to 3-dimensions, 5 sense receptor and has access to the memory of only the present lifetime. Due to genetic distortions present, only incarnates are limited in their ability to consciously access 1st and 2nd Dimensions information from the cellular consciousness and instinctual intuitive mind, or to access information from the higher identity levels, and so the incarnate possesses a subconscious mind that serves to subconsciously direct much of its conscious creative power. The incarnate identity serves as the individual personality as it manifests in a given lifetime. The incarnate identity can expand beyond its present perceptual and bio-neurological limitations through using its conscious power to activate the dormant DNA strands that will allow the process of Higher Identity Integration to begin. Through the process of Higher Identity Integration the incarnate will expand to become a Multi-vector Consciousness, multi-dimensional being that is capable of remembering and interacting with its other reincarnational identities that exist in other time cycles. The Subconscious aspects of the incarnate will become conscious and interact with the Higher Identity as DNA activation progresses and the Subconscious and Instinctual minds will cease to intuitively direct the creative power as the conscious mind expands to become the ordering and directive influence. Many humans are now beginning to evolve beyond the limitations of the incarnate identity through activation of the 4th DNA strand and integration of the 4th-Dimensional Astral identity, the first level of the soul integration process. Once Soul integration is achieved the personality of the incarnate expands to know itself as an eternal Soul embodying within the garments of flesh and no longer identifies only with the external world of 5 sensory perception. Incarnates who participate in the path of Conscious Bio-Spiritual Evolution and who are determined to choose to receive the full imprint of the 12-strand DNA Silicate Matrix are called Initiates within the Metaphysical Cluster Ordinate Program.

Kee-Re-ShA (Kundalini energy): The Kee-Re-ShA is the life-force energy that creates and maintains the physical body and consciousness while in manifestation. It is a complex system of inter-dimensional energy structures and conduits through which the energy and consciousness of Source perpetually flows through the identity and its manifest parts. The Kee-Re-ShA is a perpetual pulse of energetic substance that moves from the God Seed into the etheric grids of the 11 Nova Bodies, through which identities in time are sustained. All biological organisms have a form of Kee-Re-ShA energies that are structured in ways characteristic to the morphogenetic order of the form. In humans part of the Kee-Re-ShA energies manifest as a "tube of light" that runs

releases phase-locks on the Quatro H-2 Merkabah Core, allowing the body and consciousness to enter Quatro Phase Merkaba vehicle. The Ka-Ra-Sha Spiral 4 of the Earth's core begins the process of Avatar integration corresponding to strands 13-17, and DNA strands 10-17, the Pineal gland and extra-somatic and glandular system. The "first consciousness" energies are released phase-locks on the Quatro H-2 Merkabah-core allowing the body and consciousness to enter Merkaba Phase Merkabah vehicle for full manifestation out of matter form and into Ka-Ra-Sha 4 Pre-matter. The Ka-Ra-Sha 4 Merkabah energies represent part of the complex system of multi-dimensional biochemistry and morphogenetic field mechanics through which the human body and consciousness are created and through which the process of Ascension takes place.

Mahara Move Body: The 3-dimensional, bi-focal scalar grid within the anatomy of the multi-dimensional human morphogenetic field that corresponds to Harmonic Universe-4 and DNA strands 10-12 houses the awareness of the Avatar identity and contains the Galactic Mind of the 10th-Dimension, the Bioelectric Mind of the 11th-Dimension and the Nervous Mind of the 12th-Dimension. The Mahara Move Body contains the morphogenetic matrix, conscious awareness and Ka-Ra-Sha energy for 2 universes of Avatar manifestation within Harmonic Universe-4 and serves to tie the consciousness of each Avatar to its vehicle of ascension. It can be termed Harmonic Universe-4. The Mahara Move Body holds the memory matrix of the identity streamlines. Harmonic-4 holds 4th Pre-matter manifestation, all memory of the lower Move Bodies and the Galactic Memory Record. Merging of the Mahara Move Body with the Ka-Ra-Sha 4 of the merkabah identity, completes Avatar integration or becoming "Oned". The state of unitive equanimity for ascension develops 3-dimensional consciousness and the ability to access the planetary, galactic and universal memory through activation of DNA strands 1-12. Integration of the Mahara Move Body opens the 4th Frequency Code in earth's core that connects the human to the rare morphogenetic field, which creates a full Ka-Ra-Sha 4 under-activation through which the body form is stimulated into pre-matter transfer to 4th Merkabah Phase Merkaba. This is the true meaning of attaining "Oned consciousness" as all memory is achieved over 12 dimensions of consciousness. The Mahara Move Body corresponds to chakra and aural field levels 10-11 and 12, to the 4th Ka-Ra-Sha Spiral 4 of Earth's core, the composite 3-level Frequency Code on the Pineal Gland and to the Mahara Phase Merkaba Vehicle.

Merkaba, Electromagnetic Merkaba Spirals are a naturally occurring configuration of energy through which the multi-dimensional bioenergetic field of any matter form manifests. They are carriers of energetic substance from the multi-universal field into manifestation. Merkaba Spirals appear as spiraling, tetrahedral, funnel-shaped volumes of energy under the bioelectric and morphogenetic levels. Some of the Merkaba Spirals are magnetic receivers of energy and have a counter-clockwise spiraling spin. Other Merkaba Spirals are electrical transmitters of energy and have a clockwise spiraling spin. Merkaba Spirals assume 11 sets of 3 universalizing energies through which energy is passed between the universal field of energy, the personal morphogenetic field and the manifest form. Everyone has eight Merkaba Spirals. There are smaller Merkaba spirals, which bring energy in from each dimension of manifestation into the personal morphogenetic field, to fill the body form out in vehicles for manifestation of form and identity. There are seven dimensional Merkaba Spirals. There are larger Merkaba Spirals that span sets of 3 universes, which serve to organize and govern the processes of the smaller dimensional Merkaba Spirals. The larger Merkaba Spirals are called Harmonic Merkaba Spirals.

Harmonic Merkaba spirals have each set of 3 universalizing Merkaba spirals linked into the speed of spin set by their corresponding dimensional band. When the dimensional Merkaba spirals are phase-locked, the levels of identity and Move Body scalar grids within the human multi-dimensional morphogenetic field are kept separate through magnetic repulsion. To accomplish higher identity embodiment through Soul and Over-Soul integration, the phase-locks on the 3-dimensional Merkaba spirals must be released, to allow one set of 3-dimensional spirals merge with another. Releasing the phase-locks on the Dimensional Merkaba Spirals is accomplished through moving one Harmonic Merkaba Spiral into another. Merging Harmonic Merkaba spirals is accomplished by using the Primary Geometric, primary aural wave-guides. For each Harmonic Merkaba Spiral, to release the morphogenetic field frequency code that keeps Harmonic Merkaba spirals separate. Release of the Harmonic Merkaba Spirals reverses their direction of spiraling spin, reversing the magnetic repulsion between each set of 3 dimensional Harmonic Merkaba spirals. When Harmonic Merkaba spirals from 1 set of 3 universes merge with those from another set of 3 universes, they form a Merkaba Field, a set of 6 spiraling, counter-rotating tetrahedral funnels of energy that take on the form of a very tetrahedral formation of progressive Merkaba Fields through combining 6th Merkabah Spirals from each set of 3 universes from each Harmonic universe. In the 6 dimensional Merkabah progressively creates the various Phases of the Merkaba Vehicle.

The Merkaba Vehicle is a moving river of energy Merkabah Force that builds within the bio-energetic field of a person as they progressively merge the Move Bodies, activate inherent DNA and chakras and release the Ka-Ra-Sha

(Kundalini Spirals and Prana Field Seeds in the process of Higher Hierarchy Integration) The Markaba Vehicle allows for release of one's physical body (1D) into the continuous and harmonic universe. Activation of the Markaba Vehicle creates a vehicle of inter-dimensional light, sound, electro-magnetic and scalar wave spectra that allows for transmutation of cellular levels into light (etheric) and back again, through which transmigration (movement) into various time zones can occur. Each level of higher Hierarchy merges with the harmonic fields. Holographic representation is Phase in the building of the Markaba vehicle. The corresponding are as follows: Alpha Holographic Soul Integration creates Nadab Phase Markaba Vehicle a 4-dimensional vehicle through which Polarization of body and consciousness between Harmonic Universes 1 and 2 can occur - beta level body (and Soul Integration) creates Quadra Phase Markaba Vehicle a 3-dimensional vehicle through which full discovery from Harmonic Universe 1 to Harmonic Universe 2 is discovered - gamma level body (and Soul Integration) creates the Mahunda Phase Markaba Vehicle a 2-dimensional vehicle through which full discovery from Harmonic Universe 2 to Harmonic Universe 3 - etheric matter and transition between Harmonic Universes 3 and 4 can occur - kupa level body Field Integration creates the Rahunda Phase Markaba Vehicle a 1.5 dimensional vehicle through which full discovery from Harmonic Universe 3 to Harmonic Universe 4 is discovered - the matter is a vibration between Harmonic Universe 4 and the "dark" level of the Energy Matrix outside of the Time Matrix can occur.

Maserns: Maserns are morphogenetic crystallization of Partika (electro-kinetic units of consciousness that form the base of all anti-particles), caused by the collection of lower-vibrating, disharmonic thought patterns (thoughts create morphogenetic lattices within the morphogenetic field of the body and unconsciously Maserns manifest within the particle structure of the Hove Bodies as electrically charged anti-particles, which block the natural functions of Hove Body merger, Merkaba Vehicle formation and Dimensional Ascension. This buildup of Masernic crystals within the morphogenetic field, DNA, physical body and consciousness, which accretes from one lifetime to another, impedes the natural evolutionary process, blocking the process of soul and Over-Soul integration. The Masernic Body (collective of Masernic Crystals within the morphogenetic field) is frequently called the Karmic Imprint, its content (accrues) holographically (penetrates) the body, mind and 3-dimension (its existence through the invariant natural laws of multi-dimensional manifestation). The Masernic/Karmic imprint must be transmuted for Hove Body merger, Higher Identity embodiment and Dimensional Ascension to take place. Transmutation of the Masernic body is achieved by reversing the polarity charge of its crystallizations, merging its anti-particles, Partika with its corresponding particles, Particum (electro-kinetic units of consciousness that form the base for particles) within the morphogenetic field and DNA, which dissolves the Masernic Crystals through morphogenetic and inter-cellular fusion. Through fusion and reciprocal fusion within the next dimensional harmonic, the Masernic crystal and its corresponding body mass are transmuted into inter-dimensional light/sound/electro-magnetic/electro wave spectra, progressively freeing distortions from the Hove bodies, to allow building of the Merkaba Vehicle and the processes of Dimensional Ascension in harmony.

the present by changing the morphogenetic program of the past, as it is stored in the DNA. The fastest, most gentle way of dissolving the karmic memory is dealing with the stored energy as energy with energy using Keylotic Source technique to reverse the polarity of the Miasmatic particles through which their crystalline structure dissolves, then re-directing the re-ordered energy back into the DNA. The Miasmatic Body can be cleared in one lifetime, without one having to "walk through the Karma of the past" if the dynamics of Miasmatic release through Keylotic manipulation of the morphogenetic field are understood.

Morad: The Morad identity is the portion of the multi-dimensional mind that corresponds to the 8th Dimension and the God Seed, the center of the Over-Soul Matrix and the sketchy Hova Body through which the Hova bodies and identity levels in the Time Matrix connect to the God Seed through the Hova Bodies stationed within the Energy Matrix. The Morad is a 3-Dimensional scalar grid Hova-body that houses the Over-soul sexual identity in dimensions 1, 2 and 3, and that also oscillates as well as a fixed pattern of total vibration within the God Seed, within which the scalar grids of the 8 Hova Bodies reside. The Morad identity is the central control consciousness for the Over-Soul Matrix within the Hova body. The second level of higher identity integration is called Over-soul integration, the process by which the sketchy Hova Body of the Over-Soul identity merges through the bio-energetic field and DNA with the Nada Hova body of the incarnate identity. The 8th dimensional Morad identity connects to the Morad Body in the God Seed, the core morphogenetic field that contains the "Cap Stone Codes" which connect the Kapa Hova Body Field identity of 11, 5 to the 3 levels of Ascended Masters in the Energy Matrix and the God Seed, directly within the core of the God Seed.

Through Anchoring the Morad, to speed is the process of self-soul integration, the scalar grid of the 8th Dimensional Morad Mind is brought progressively into merger with the 5th dimensional Archetype Mind and the 2nd dimensional Embodiment Body, which re-aligns distortions in the 7th Dimensional Karmic Mind, the 6th Dimensional Angelic Mind, the 5th dimensional Archetype Mind, 4th Dimensional Astral Body, 3rd dimensional Mental Body, 2nd dimensional Emotional Body and 1st dimensional Cellular and Etheric Body. The karmic and Archetype bodies are progressively purged of distortions and realigned with the morphogenetic scalar grids of the sketchy Hova Body and Morad mind as held within the God Seed, as the 8th Dimensional Morad frequencies move through the scalar grids, chakras and DNA strands corresponding to the 7th through 1st dimensional morphogenetic fields. Anchoring the Morad imprints the personal morphogenetic field with the assigned template for DNA strands 1-8. Activating the Morad begins the process of manifesting DNA strands 1-8 within the operational gene code, once they have been realigned through the Anchoring process, allowing a progressive embodiment and conscious awakening of the Over-Soul Matrix identity within the incarnate identity.

Full Over-Soul integration expands the incarnate identity from a 5-Dimensional Soul integrated consciousness to a 9-Dimensional consciousness, through which the incarnate becomes a fully embodied Over-Soul. A fully embodied Over-Soul has a 9-Dimensional perceptual range, is capable of conscious astral projection in 8 dimensions, bi-location in 3 Harmonic Universes, and transmigration between Harmonic Universes 1 and 2, through entering Quatra Phase Meritaba, once these skills have been honed.

Morphogenetic Field: See Crystal Body

Nada Hova Body: The 3-Dimensional, bi-tonal scalar grid within the anatomy of the multi-dimensional human morphogenetic field that corresponds to Harmonic Universe 1 and DNA strands 1-3, houses the awareness of the incarnate identity and contains the Subconscious/Cellular Mind of the 1st Dimension, the Instinctual/Intuitive/Emotional Mind of the 2nd Dimension and the Rational/Reasoning Mind of the 3rd Dimension. The Nada Hova body contains the morphogenetic imprint, conscious awareness and Kee-Ra-SiA energy for 7 cycles of 12 incarnations within Harmonic Universe 1 and serves as the consciousness of each incarnate in its parallel and mirror double in parallel Harmonic Universe 1. The Nada Hova Body holds the memory matrix of the identity's harmonic universe-1 incarnations and the individual Cellular Memory Record, a phase-locked set of the dimensional strands of harmonic Universe 1 (dimensions 1, 2 and 3) and the Single-vector Consciousness able to perceive only its immediate 3-dimensional environment until it is opened to higher identity integration through activation of dormant (AA strands and the 1st Kee-Ra-SiA) strand at the base of the spine. The Nada Hova Body corresponds to chakras and auric field levels 1, 2 and 3, to the 1st of 3 Kee-Ra-SiA Kundalini Spirals at the base of the spine and to the 1st of 3 Frequency Scale on the Pleural Gland, which regulates activation of the Adhara (4th) Meritaba Field.

Over-Soul: The Over-Soul Identity is the portion of the multi-dimensional identity that corresponds to the Becha Hova Body of Harmonic Universe-3, contains the Ketheric Mind of the 7th-Dimension, the Monadic Mind of the 8th-Dimension and the Kenetic Mind of the 9th Dimension, and exists in a Scalar-based Etheric matter state of density. The Over-Soul identity represents the 3rd dimensional state of cognitive existence and experiences with full activation of DNA strands 1-3, can access the Planetary Memory Record and is capable of entering Jutha Phase Merkaba Vehicle. Over-Souls are created by the Avatars in sets of 12, forming the Over-Soul Matrix. The Over-Soul projects portions of itself into Harmonic Universe-2, creating sets of 12, souls forming Soul Matrices. Beings who have begun the process of Over-Soul integration are called *Rashim* (2nd Degree Ministers) in the Machizadek Cluster Ordinations Program.

Raja Hova Body: The 8th of 13 Dimensional, bi-lateral scalar grids within the anatomy of the multi-dimensional human morphogenetic field that corresponds to Harmonic Universe-5 morphogenetic codes 13-15 (m-2A) an avatar, houses the awareness of the Raja Identity Gestalt and contains the Universal Conscious Mind of Dimensions 13-15. The Raja Hova Body contains the morphogenetic matrix, conscious awareness and the Far-ohA energy of 2 cycles of 12 Anti-matter Rish Consciousness. It exists in Harmonic Universe-5 and exists with each Rish with its parallel anti-particle double in parallel Harmonic Universe-1. The Raja Hova Body holds the primary matrix of the identity's Harmonic Universe-4 with many ectasms, memory of all lower Hova Bodies and the Universal Memory Record. The Raja Hova Body corresponds to chakras and auric field levels 13, 14 and 15, does not translate into manifest DNA strands, cannot full integrate into an incarnate body, and is composed of Anti-matter scalar grids of pure, sentient consciousness.

Rishi: The Rishi identity is the portion of the multi-dimensional identity that corresponds to the Raja Hova Body of Harmonic Universe-5, contains the 15 Dimensional Universal Mind and exists in a state of pure conscious Anti-matter wave-forms. The Rishi identity represents the 15 Dimensional state of cognitive expansion and experiences fullness of transmutation out of Pre-matter and space, time and matter perception. The Rishi is a Gestalt of Multi-dimensional Consciousness that appears as a flaming sphere of light when viewed from lower dimensions. Rishi are created in the Geometric Ectases of the Triadic level of the Energy Matrix in sets of 12, forming Rishi Consciousness Collections. Each Rishi projects portions of self into Harmonic Universe-4 to create sets of 12 Avatar Consciousness Gestalts. When one has expanded into full identity perception expands to 14 dimensional Manifest Consciousness, a state often referred to as Universal Consciousness. The Rishi Consciousness Collective can access the Universal Memory Record and is capable of entering Jutha Phase Merkaba Vehicle for movement into the Energy Matrix. Beings that have embodied their Avatar identities and have integrated their Rishi identity into their universal field are called *Coconspirators* (4th degree ministers) in the Machizadek Cluster Ordinations Program.

Scalar Grid: A scalar wave is a multi-dimensional standing wave pattern that emanates out of a fixed point of sound, focal vibration, within the morphogenetic field of the cosmic Unified Field of Energy. Scalar waves appear to move from one place to another, but in truth they are stationary points of light that are strung together in sequences, within the fabric of the cosmic morphogenetic field. The active state of scalar wave movement is generated as sequences of scalar wave points are activated or "lighted" in synchronization with each other, an effect often compared to progressively flashing a series of light bulbs, strung out in a line, off and on, one at a time, flashing the first bulb off as the second lights, etc., whereby it appears that the light has moved from one point in the line to another. Scalar waves represent fixed points of perpetual fire and hence that emanate from the fabric of morphogenetic fields. Morphogenetic Fields are built upon units of electro-mental consciousness called Partik (electro-magnetic Partik (base electrical transmitting energy) and Partium (base magnetic receiving drawing energy). These units of electro-mental consciousness group together to form Strands then Grids, then dimensionalized geometrical crystallizations of energy (called Keyton Codes) that represent the full nature of morphogenetic field construction.

The Partik Grids formed by the Partik units possess an inherent vibrational rhythm that creates a cycling of Partik units, or phases. In 1 phase the electro-magnetic Partik unit integrates internal fusion and releases a burst of polarized energy that becomes the magnetic Partium and the electrical Partik. At the creation of the Partium and Partik, the original Partik de-manifests, or "flashes off" while the Partium and Partik units "flash on" into manifestation. The polarized energy of the Partium and Partik units draw the units back together into a state of fusion, at which point a burst of energy in the form of a Partik is released, the original Partik is re-created and "flashes on" while the polarized Partium and Partik units de-manifest and "flash off". The process of Partik fusion and fusion, which is

called **Particle Phasing** takes place within every Particle unit that composes the Particle grids of morphogenetic fields. Each Particle unit thus represents a fixed point of resonance, a standing scalar wave, that flashes on and off which emanates from the fixed point of electro-kinetic vibration that forms the Particle unit.

The scalar wave resonates to the standing wave of light that is coded in the morphogenetic Particle grid as fusion and fusion electromagnetically occur during the process of Particle Phasing. As the unit is flashing through fusion to become Particles and Particles are re-merging through fusion to reproduce the Particle unit. Particles are the field-magnetic (magnetic) removing units of energy that create the scalar wave templates for matter particles (the electron and photon) as the base-electron (photon) synchronicity units of energy that simultaneously create the scalar wave templates for anti-particle manifestation. The Particle represents the stage of Particle Phasing in which the particle and anti-particle fuses. Tachyons of acceleration and deceleration function as an essential anti-matter wave form. This dynamic of Particle Phasing creates a synchronized flashing off and on of manifest particles within the morphogenetic fields of cosmic structure operating from the macrocosmic to the microcosmic. It is the process by which information life force energy from Source perpetually vibrates through waves and sub-waves in the structure of the Time and Energy Matrices. All things manifest upon a morphogenetic template of Particle grids or grids of standing scalar waves, which are called **Scalar Grids or Scalar Fields**. The entire morphogenetic field of the cosmic Unified Field of Energy yield to manifest levels of the Energy Matrix and 15 Dimensional structure of the Time Matrices represents a Unified Source Field within which smaller Source and morphogenetic forms of consciousness are poised for individualized expression and evolution. The 8 Holographic Bodies of multidimensional human morphogenetic anatomy are smaller Scalar Grids that house the dimensional vibrational levels of consciousness in time. The human body mind and consciousness manifest through the natural laws of multi-dimensional Particle Phasing and Scalar Grid mechanics that are inherent to the macrocosmic and microcosmic manifestation process. The energetic reality behind our process of Bio-Spiritual Evolution is the progressive and sequential plugging the multi-dimensional scalar grid into each other through which the Unified Field of our consciousness is progressively expanded each into its unique fully unified Infinite Source Consciousness.

Silicate Matrix The original core genetic template of the human lineage before mutations occurred, portions of which still create the foundations of our operational DNA, while other portions remain dormant or fragmented within the cells and have been identified by contemporary science as "junk DNA fragments". The full Silicate Matrix is built upon a morphogenetic template of 12 DNA strands, each strand corresponding to 1 of 12 dimensions of frequency through which 12 dimensions of consciousness are unified within the human form. When the Silicate Matrix functions within the operational gene code, each of the 12 strands contains 12 primary magnetic Base Codes that correspond to the particle body and 12 primary electrical Acceleration Codes that correspond to the anti-particle body or parallel Earth, which together manifest as an observable double-helix DNA chain. The DNA and RNA of the particle and anti-particle bodies are intricately intertwined through the morphogenetic field, which creates a symmetrical correspondence and synchronous path of existence between the earth incarnate and its parallel earth double. Within the structure of the Silicate Matrix there are also specialized codes called Activation Codes, which when activated allow one strand of DNA to fuse with another for transmission of the strand codes to a higher level of function, the mechanism behind cellular transmutation in ascension.

The Codes of the DNA begin as specialized inputs within the multidimensional field that appear in the form of star tetrahedron crystals. The DNA imprint is a scalar grid, an interwoven group of standing scalar wave pattern built upon fixed point of sound vibration that is progressively activated over time as frequency from the Unified Field is drawn in to stimulate the dormant wave-forms of the molecular activation. Once activated the DNA codes produce bio-chemical and electrical impulse instructions within the body directing the functions of and manifestations within the physical body and brain. The condition of the Silicate Matrix in the gene code and determines the form of the operational bio-neurological structure through the manifest DNA grid and regulates the wave type and abilities of consciousness that can focus within the body form. The use and of the DNA codes expansion of the unified consciousness and distortion in the DNA creates distortion in the structure of the individual consciousness.

Along with the primary 12 Base and Acceleration Codes, each of the 12 DNA strands contains many secondary code sequences, some of which are valued by the parent's gene code at conception, others that correspond to inter-dune and reincarnational family associations; these secondary DNA code sequences are called Sub-Strand DNA Matrices. Each of the 12 double-helix DNA strands has a morphogenetic design that resembles the structure of a three-dimensional many smaller other 12 gene code sequences contained within each singular strand. Each double helix DNA strand contains 12 smaller sub-strand sequences and patterns of sub-strand fragments; the double helix counts as 1 full DNA strand in the Silicate Matrix. The DNA presently identified by contemporary science represents a small portion of the Sub-strand Matrices within the 1st and 2nd strand of the Silicate Matrix, some of which correspond to the genetic imprint inherited by the biological parents, others portions

corresponding to part of the memory matrix from past incarnational life cycles in the Lemurian and Atlantean Root Race evolution cycles. As the Silicate Matrix is a multi-dimensional universal structure, it can only manifest the portions of its manifestations that exist within the contemporary perceptual range of awareness (2 to 3). The vibratory nature and rate and angular rotation of sub-particle spin for most of the 12 DNA strands is presently out of the perceptual field of contemporary observation, and thus the other strands, both dormant and active, appear invisible to scientific observation. Contemporary Science assumes that the human form has only 24 DNA strands, a theory which each cell is considered to house its own set, but this theory is flawed upon limited 3-dimensional observation. Contemporary genetics theory does not take into account the natural laws of energy as they apply within a multi-dimensional Universe.

DNA, Manifestation and Time

The Silicate Matrix represents the vessel through which the morphogenetic field makes its transition into physically manifest matter substance. Through complex morphogenetic field dynamics known as the *Transduction Sequence*, the journey from the dimensional joined fields of energy surrounding the body is drawn into, and within the morphogenetic imprint of the DNA, which begins a progressive manifestation of the dormant strand segments through particle activation with the physical chemical gene code, as the dimensionalized conscious awareness within the Unified Field progressively initiates a evolution of growth and expansion of the physical body and consciousness. The structure and mechanics of the Silicate Matrix represent a complex, elegant system of Bio-Spiritual Evolution, affecting not only the present life manifestation but also connecting the present embodiment to all other manifestations of the identity in time. The Silicate Matrix was designed to carry forth evolution of the human race, oversees the activation and manifestation of each DNA strand, and the physical attributes sustained therein, takes place over long expanses of time, creating race evolutionary cycles to which each individual in a given time period is connected. All of the 12 DNA strand segments within the morphogenetic field corresponds to specific vibrational frequency bands within the 19-Dimensional Universal Time Matrix, each dimension corresponds to a specific time duration within the 19-Dimensional Time Matrix, and each set of 3 dimensions = 1 Harmonic Universal corresponds to a larger Harmonic Time Cycle within which the slower time durations take place. As each DNA strand of the Silicate Matrix corresponds to a specific dimensional band, each strand therefore also corresponds to the time continuum that corresponds to that dimension. In the 12-strand package, 4 sets of 3 strands or segments = 4 3-dimensional harmonics = the cycles, and it is through these time cycles that an embodied consciousness achieves by entering (driving in) the frequencies of the corresponding 3 dimensions into the morphogenetic field, which progressively brings the dormant codes in the corresponding DNA strands into manifest operation. It is through the Silicate Matrix in the DNA that consciousness experiences the forward movement through linear time, as specific sequences of DNA codes progressively activate to change the vibration of the body form in minute ways that creates the perceivable experience of one moment progressing into the next.

The DNA operates as a memory recording matrix and holographic projection machine. Each moment a person passes through represents a specific electro-magnetic signature in dimensionalized energy; the contents of the "moment hologram" or aerial picture of the moment, actually represent a digital electronic program that is stored in the dormant DNA, and when the corresponding DNA codes come into activation within the body, the holographic projection of their contents "comes to life" upon the "screen" of the Unified Field of energy, to create the 3-dimensional external life experience. It is due to the complex coding of the DNA that the manifested body form and aerial realm picture appear to be made of solid matter, when in fact the body and all things ultimately exist as electro-magnetic signatures in energy. As the embodied vibration waves pass through a manifest moment, part the electro-magnetic signature of that moment is then recorded by the DNA; the memory imprint becomes embedded within the body cells and morphogenetic field, progressively forming what is called Cellular Memory. In each DNA strand there is thus stored the memory imprints of what the embodied consciousness experienced as it passed through the linear time continuum corresponding to that strand, event memory from the current life time and also from past incarnations is stored within the Cellular Memory of the body. Memory from future time manifestations of the identity remain as dormant sequences of moment holograms that will become manifest experiences as the DNA strands corresponding to higher dimensions progressively activate through the evolution of the identity in time.

There is actually a progression through various levels of vibration within the Unified Energy Field of the 19-Dimensional scale; the Unified Field represents a fixed energy field within which all time experiences takes place, and thus time is simultaneous in nature. Perception of linear time progression is created through the DNA and energetic mechanism of the body and consciousness. The Activation Codes of the Silicate Matrix within the DNA imprint are called Genetic Time Codes, they drive for DNA strand fusion, which creates the ability to exponentially increase a time portrait and in turn create the body form out of its present time vibration and state of affairs. The Genetic Time Code Activation codes are the key in expanding from Single vector to Multi-vector Consciousness. These hidden abilities of human genetic potential have remained dormant for most, due to

imprints in the morphogenetic imprint of the Silicate Matrix DNA. These imprints can be realigned using Kryptonic Science, thus restoring the potential of biological movement through time in the embodied human consciousness.

The design of the Silicate Matrix was created millions of years ago when Harmonic Universe 2 and the human lineage has a long history of evolution within the time cycles of MU 2 prior to its seeding in MU 1. The Silicate Matrix design corresponds to race evolutionary cycles, and each strand represents a series of Ascensional cycles within specific Root Races that were predominant in specific time cycles. For example, the memory imprints for one's Atlantean incarnations can be found in the 3rd DNA strand as the Atlantean race evolution cycle corresponded to a time continuum within the frequency bands of the 3rd Dimension. Presently we are in the Arctian race evolution cycle which we occupy in the continuum within the 4th dimension. As we move through our present time continuum our experiences are being recorded within the imprints for the 4th DNA strand which we are just beginning to achieve as a race. The 5th DNA strand which we are entering in external reality but individuals within races represents the "moment holograms" that were recorded during our Atlantean life cycles in dimension 3, which are recorded in our 3rd DNA strand. We will perceive as manifest nearly the dimensional bands and DNA strand programs that exist one full dimension below our present station of consciousness. As we are now beginning to enter 4th dimensional consciousness through natural evolutionary evolution of the 4th DNA strand imprint, we are now beginning to see the physical manifestation of the experiential memory programs that were set when our consciousness was stationed in the 3rd dimension at the beginning of the activation of DNA strand 3. Strand 1 experience corresponds with our tour through the Atlantean Root Race cycles, and so now we are beginning to enter through the manifestations of our collective Atlantean thought forms. Though the processes by which the DNA Silicate Matrix directly provides our perceivable passage through physical time, space and matter is quite complex, it is important to recognize the breadth of the Greater Matrix and wide design for humanity pertains to our present life physical and immaterial evolution, but is an intrinsic part of our true evolution from its inception to its intended fulfillment. The Silicate Matrix contains the dormant potentials of our personal and race evolutionary blueprint, potentials we can now begin to reclaim if we can understand the intrinsic part of our biological and spiritual heritage.

Bio-Spiritual Evolution and DNA

On a personal level, the Silicate Matrix corresponds directly to the levels of identity, the chakra system, levels of the auric field, the Hove Body anatomy, the operations of the Kee-Ra-Sha (Kundalini) energy and the formation of the Merakha Vehicle; all of these aspects of the human design represent an intricately interwoven system of Bio-Spiritual Evolution that our contemporary sciences have yet to fathom. DNA strands 1-3 strands activated during the past Hyperborean, Atlantean, Lemurian and Adamic Root Race evolutionary cycles correspond to chakra and auric field levels 1-3 to the physical, emotional and mental bodies of the incarnate identity level, to the Nade Hove Body and Nade Merakha Field of Harmonic Universe 1. To the 1st of 3 Kee-Ra-Sha spirals at the base of the spine and contain the memory and manifestation imprints of our incarnational experiences within the time cycles of Harmonic Universe-1. DNA strands 4-6 strands that will activate during the present and future Arctian, Martian and Eurythmian Root Race cycles, correspond to chakra and auric field levels 4-6, to the Astral, Archetypal and Angelic Minds of the Soul Matrix identity level, to the Adept Hove Body and Haven Phase Merakha Vehicle of Harmonic Universe-2. To the 2nd of 3 Kee-Ra-Sha spirals at the base of the spine and contain the memory and manifestation imprints of our future-time manifestations in the Semi-etheric matter time cycles of Harmonic Universe 2 which we will progressively perceive as manifest nearly as we move through the Soul integration Process. DNA strands 7-9 correspond to chakra and auric field levels 7-9 to the Kathic, Monadic and Ketheric Minds of the Over Soul Matrix, to the Balche Hove Body and Quete Phase Merakha Vehicle of Harmonic Universe-3. To the 3rd of 3 Kee-Ra-Sha Spirals at the base of the spine and contain the memory and manifestation imprint of our future-time manifestations in the Harmonic Universe-3 (etheric matter time cycles which we will begin to experience as manifest as we move through the Over Soul integration process. DNA strands 10-12 correspond to chakra and auric field levels 10-12 to the Theodic, Buddhic and Nirvanic Minds of the Avatar Matrix identity, to the Mahara Hove Body and Mahurda Phase Merakha Vehicle of Harmonic Universe 4. To the 4th Kee-Ra-Sha Spiral in Earth's time and contain the memory and manifestation imprints of our future-time manifestations in the the-matter-soul-light Time Cycles of Harmonic Universe-4 which we will enter as manifest experience as we move through the Avatar integration process to become fully "healed" beings. (DNA strands 1-12 exist as dormant DNA potentials within the Greater Races that merge within the Root Race Cycles—the Ur-Atlanteans, the Draconid, the Mahari, the Merakzedek and the Yurasei). Existential Full activation of the 12-lead Silicate Matrix will allow a fourth transmutation from gross matter density to spiritual density from which point we enter a form of transcendent reality beyond the "moment holograms" of time, space and matter. Though it may be a long journey to achieving this state of being for most of us, the

progression of evolution toward Dimensional Ascension is the intended purpose and potential held within the design of the Silicate Matrix.

Though all consciousness evolves within the small dimensional structures, the human organism is the only Earth species that possesses the full 12-strand DNA potential of the Silicate Matrix and its attributes of binary transmutation for multi-dimensional evolution. Most genetic codes and morphogenetic field configurations rely upon death of the physical organism and progressive rebirth into more highly evolved forms for the evolution of consciousness. Presently the human genetic code operates in 12 to some only due to mutations and distortions in the Silicate Matrix. However, these genetic distortions can be progressively released from the human DNA imprint through reassigning the morphogenetic field upon which the physical DNA is built, such morphogenetic field reassignment has the potential to reverse-mutate the human genetic code back into its original form of the Silicate Matrix, thereby securing the evolutionary potential of humanity's multi-dimensional heritage. Techniques of Karyotic Science that serve to expedite the process of New Body merger, consciousness expansion and higher chakra and DNA activation serve to rapidly restore the morphogenetic imprint for the Silicate Matrix.

Soul: The Soul Identity is the portion of the multi-dimensional identity that corresponds to the Alpha New Body of Harmonic Universe-2, contains the Astral Mind of the 4th Dimension, the Archetypal Mind of the 5th Dimension and the Angelic Mind of the 6th Dimension, and exists in a Carbon-Silica based Semi-etheric state of matter density. The Soul identity represents the 6 dimensional state of cognitive expansion one experiences with full activation of all strands 1-6, can access the Karmic-Space Memory Record and is capable of entering Tenth Phase Merkaba Vehicle. Souls are created by the Over-Soul in sets of 12, forming soul vehicles. The Soul Matrix projects portions of itself into Harmonic Universe-1 to create sets of 12 mermaid, grass matter (physical) incarnations, forming incarnational Matrices. Beings who have accepted a "Kary DNA Bond" between their incarnations and kary identity levels, which anchors and accelerates the process of Soul evolution, are called **Monads** (14-dimension matrices) in the Melchizedek Double Transmutation Program.

Star Step Creation: The process by which the consciousness of the central Source of Creation projects its awareness into the formation of morphogenetic stellar fields, laying the foundation structures for Macrocosmic and Microcosmic Order. The energetic structures of dimensionalized reality fields are created from units of conscious substance and infinite multidimensional morphogenetic fields are projected into the Unified Energy Field of Macrocosmic consciousness, forming vast systems of individual life forms and consciousness collectives. In relation to human design Star Step Creation involves the projection of consciousness from Source into progressively smaller gestalts of individualized consciousness, that become manifest forms of sentient, creative life within the Macrocosmic structures of the Time and Energy Matrices.

Human Identity and Star Step Creation

Human consciousness first individualizes within the Source-Mind (Jed-Ning) in the form of the God-Seed, or eternal, electro-tonal gestalt of consciousness (impulse) of pure conscious intention which exists within the Unified Field of Source Consciousness, the Yinnah. The God-Seed is a blueprint of the characteristics of consciousness possessed by the Yinnah, and thus creates within itself smaller constructs of consciousness that reflect the structures set by the Yinnah as process of exponential fractalization. The God-Seed represents the Source Family of Gestalt Consciousness within which the levels of individualized identity have their being. The Yinnah creates many God-Seeds, and in relation to the structure of our Cosmic Order there are 24 x sets of 12 Primary God-Seed Collectives within which our cosmos and universes manifest. Creation of the God-Seed Consciousness Gestalts is the first step in the Star Step Creation process.

As the God-Seed Consciousness Gestalts are infused with the energy-identity and created in the image of the Yinnah, they too create forms of individualization within themselves. In the second step of Star Step Creation, each God-Seed creates within itself sets of 12 Monads, Cosmic Family Gestalts of Consciousness, within which many universes are created. In the third step of Star Step Creation each Monad creates within itself a family of vibrating light and sound that becomes the morphogenetic field for energy Matrices. Within the first level of an Energy Matrix, within a Monad, the Eukelic Level, sets of 2 Consciousness Gestalts called **Flowers** are formed. On the fourth step of creation the Lower God-Seeds create within themselves and the Monad sets of 12 Rank Consciousness Gestalts within the Floric Level of the Energy Matrix. The fifth step, each Rank Consciousness Gestalt creates within itself and the Monad, sets of 12 Geometrically-rotary Consciousness Gestalts within the Thack Level of the Energy Matrix. The layers of Eternal Gestalt Consciousness created within the Yinnah, which take on the form of concentric spheres of conscious energy – the **Yinnah**, the **Monad**, the **Eouar**, the **Rank** and the **Ueal** – all Energy are considered **Ultra-Terrestrial Consciousness** and represent the Ascended Mastery levels of human consciousness.

In the 8th step of Stair Step Creation each Geometric Entry Vortex in the Trade Level of the Energy Matrix polarizes its consciousness to form within itself a set of 12 harmonic universes. The Matrixes, starting with a point of frequency that represents the scalar grid of the 3rd dimension, the harmonic Entry frequency patterns of itself simultaneously etc., sets of 7 dimensionalized scalar grids forming 14 dimensions within which manifest reality will take place. The scalar grids of the 7 sets of 7 dimensions, plus the original 8th-Dimension form one 15-Dimensional Super Grid called a *Form Matrix*. Simultaneously the geometric Entry Vortexes as a reservoir 15 dimensional Time Matrixes also exist which form the foundation for 4 harmonic universes—universes and their corresponding parallel Anti-particle harmonic universes. Step 7 The geometric Entry Vortexes polarize of its consciousness in the highest vibrating dimensional fields of the particle and anti-particle universes, the 15th, 14th and 3rd dimension of the 4 harmonic universes, forming sets of 12 Data Calculations—creating the first dimensionalized morphogenetic scalar grids of conscious Anti-matter wave form structure in the foundations for multiple dimensional morphogenetic structures. Step 8 The Anti-Consciousness Gestalts create sets of 12 projections of their consciousness in the 1st, 1st and 1st dimensions of harmonic universe 4, creating 7th morphogenetic fields upon which the matter wave light Anti-matter consciousness wave form form. The 7th matter crystalline liquid light scalar fields of harmonic universe 4 are often referred to as the *formers* and form the foundations for multiple parallel morphogenetic structures.

Step 9 The Anti-Consciousness Gestalts create within themselves sets of 12 projections of their consciousness in the 6th, 6th and 7th dimensions of harmonic universe 1, creating the morphogenetic fields upon which the *formers* take form. Since based its forms of Over-soul universes was Gestalts form which form the foundations for multiple planetary morphogenetic structures. Step 10 The Over-soul universes form Gestalts create within themselves sets of 12 projections of their consciousness in the 6th, 6th and 6th dimensions of harmonic universe 2, creating the morphogenetic fields upon which form-ether matter carbon wave based life forms of Soul structures form. Gestalts create within themselves sets of 12 projections of their consciousness in the 2nd, 2nd and 1st dimensions of harmonic universe 1, creating the morphogenetic fields upon which ether matter ether based life forms of *formers* consciousness Gestalts form which form the basis for technical morphogenetic structures.

Science, spirituality and stair step creation

The dynamics through which Stair Step Creation unfolds are infinitely complex in both scientific and spiritual terms. The perpetual creation of living Gestalts of conscious Awareness through the formation of morphogenetic scalar grids is a highly ordered system of creation, which employs sciences of extensive geometrical and mathematical relationships as they apply to the mechanics and dynamics of energy. The morphogenetic fields of creation Particulate form scalar fields are mathematically structured upon both sphere and complex geometrical relationships between units of conscious electro-magnetic energy. Mathematics, Science, Sacred Geometry and Metaphysics provide us with the tools of understanding the mechanics by which our creation unfolds. Within the secrets of our Stair Step Creation lie the hidden purposes and processes for our evolution. Through understanding the hierarchy of Gestalt identity out of which we each emerge, we can begin to comprehend that our evolution represents a return to wholeness, and expansion back into that which we once had been.

In the formation of our hierarchy of consciousness, the Gestalts through which we received our progressive individuation represent a progressive fragmentation of consciousness into smaller parts. With each level of fragmentation of consciousness the vibratory oscillation rate and frequency of our energy-identity drops to a lower, slower level, creating the experience of our consciousness descending dimensionally into space, time and matter. As our entry into matter is a process of high scientific order, the exit is our return to wholeness a scientific as well as a spiritual process of consciousness. Our evolution to wholeness represents a progressive reformation of our fragmented parts and experience into becoming the Gestalts of consciousness through which we were once created. In our return to wholeness the vibratory oscillation rate and frequency of our energy-identity rises and we begin the process of Dimensional Ascension, the reversal of the process of descending dimensions into space, time and matter. (As all evolution takes place in the same space, the process of ascending and descending the dimensional scale is a process of rising and lowering the vibratory oscillation rate/frequency of the energy of our consciousness to create expansion and contraction rather than moving our consciousness from one place to another.) Our evolution into wholeness to return to the Universe and reclaiming our place with Source is simply a process of progressively rising the scalar grids of our 1st-15th dimensional Gestalt identity (the 8 Holographic Bodies) and expanding our dimensionally-consciousness back into universal. Through this process of consciousness experience our bodily matter will progress through the de-manifestation process of passing from Gross matter density through the Semi-Ethereal, Etheric and Pre-matter density states, to return to our original form of pure, conscious Anti-matter wave form. Ascension is the liberation of matter of Stair Step Creation and the plan of perpetual creation is both highly scientific and highly spiritual. The key difference is

evolutionary fulfillment is the *Silicate Matrix* 12-strand DNA genetic code, for within this structure lives the promise of Ascension and a return to sentient, conscious At-one-ment with All-That-Is.

As we begin to understand the science of spirituality we will simultaneously learn the spirituality of true science. Through the process of Stair Step Creation, the Consciousness of the Yunesa/Source/ God/ All-That-Is creates within itself infinite varieties and structures of consciousness and identity, made of the energetic substance of the Yunesa-consciousness itself, much as humans create within their minds images, events, and thought-form structures using the substance of their consciousness. As human thought forms exist within the consciousness that creates them, so too do the thought-forms of the Yunesa/Source exist within the Yunesa/Source-consciousness. This implies that all things in creation are composed of the substance of the consciousness of Source/God/the Yunesa and that no thing is ever separate from Source because all action and creation take place within the structures of the Yunesa/Source-consciousness. Therefore all things in creation are sacred and represent individuated manifestations of the consciousness of God.

Things deemed negative from the human perspective represent a part of the intrinsic polarity or division of energy that is required to keep the manifest creation dynamic in motion. In the scientific terms of energy mechanics, creation relies upon the polarity of electrical transmitting and magnetic receiving force. Polarity of energy, duality of consciousness – one implies the other – because all consciousness is energy and all energy is conscious. In terms of morality within the experience of the human drama, the “forces of good and evil” can be understood in terms of the forces of order and chaos – organization and disorganization – creation and destruction – darkness and light – natural attributes of the nature of All-That-Is. Therefore we learn to embrace the totality of existence, the darkness and the light within ourselves and throughout the universe. Through understanding the science of creation we learn the spiritual lessons of allowance and unconditional love, as we recognize all things, forces and beings as intrinsic parts of our Unified Field of Consciousness.

In recognizing the One Source of Creation (which the Melchizedek Clouster refers to as the Yunesa-the Point of Union) through which we are all indelibly united we are enabled to become a force of healing and restoration in the dramas of polarity – restoring chaos to order – disorganization to organization– destruction to creation – darkness to light – fragmentation to wholeness – and duality to unity, within ourselves and throughout the worlds we encounter.

Stair Step Creation represents a model of cosmological order through which science and spirituality are fully brought together, revealing the intrinsic and dynamic relationships between mind, matter, spirit and Source.

Course -1 Audio Tape Descriptions

Tape 1 Lecture 1: Linking with the Solar Rish - 'Ava Bodies and Christ' Consciousness **Keylontic Technique 1: Linking with the Solar Rish**

Lecture 1 offers a discussion on awakening the higher spiritual identity providing an orientation to the road map of multi-dimensional human anatomy and the levels of transcendent consciousness through introducing the 8 landmarks of consciousness: the Hava Bodies (8 tones scalar grids that form the morphogenetic field and hold the focus of multi-dimensional levels of consciousness) and their associated levels of mind and dimensional correspondences.

Technique 1 establishes a bio-energetic DNA and consciousness link between the earth incarnate identity (Nada Hava Body, dimensions 1-3) and the galactic Rish identity (Raja Hava Body, dimensions 13-15). Introducing the electromagnetic patterns of the Nada Hava Body into the Nada Hava Body begins building The "Pillar of Light" within the morphogenetic field, chakra system and DNA. The Pillar of Light is the vertical scalar wave frequency bridge that connects the 15-dimensional aspects of consciousness to the scalar grids of their original eternal "Ascended Master" levels of past life identity which exist beyond the dimensionalized structures of time. This exercise begins activating the morphogenetic codes through which the Nada, Aphi, Satcha and Mahara Hava Bodies of dimensions 1-12 come into alignment with the Raja Hava Body and Rish identity level of dimensions 13-16. Linking with the Rish- Raja Hava Body begins reorganizing the scalar grids within all of the lower Hava Bodies with the original scalar patterns upon which the consciousness entered the dimensionalized reality fields of time, to set the morphogenetic field through which ascension out of space-time-matter may occur. The mental symbol used in this technique is translated by the body consciousness into digital instructions (bio-chemical and electro-magnetic pulses) which serve as navigational directions for the line of energy through the morphogenetic field, chakra system, DNA, mind and body. This exercise begins the release of the 1st of 3 Frequency Seals on the Pineal Gland through which the Kae-Ra-Sha energies (mandala) of the body are regulated. The 1st Pineal Seal corresponds to the frequencies of Dimension-10, release of this Seal begins activation of the 10th Chakra and stimulates the dormant 10th DNA strand of the Sikula Matrix into activation. (Strand 10 will not fully manifest in the operable gene code until Strands 4-9 have activated.) Awakening the 10th Chakra and DNA 8th strand through release of the 1st Pineal Seal is the first step for preparing the biology and embodied awareness to receive expansion into the Avatar or "Christ" consciousness levels of dimensions 10-12.

The effects of Keylontic Science morphogenetic field techniques are cumulative: consistent repetition creates progressive bio-systems and DNA activation and expansion of consciousness. This technique can be used as often as desired.

Tape 2 Lecture 2: Anchoring the D-5 Archetype- Bio-Spiritual Evolution and Soul Integration. **Keylontic Technique 2: Anchoring the D-5 Archetype**

Lecture 2 provides an introduction to the structures of cosmological order: Dimensions, 15-Dimensional Matrices, Harmonic Universes, Scalar Waves and Grids, and their relationship to the order and function of the multi-dimensional human psyche, galactic consciousness and the 5 Anas Hava Bodies. Discusses the levels of mind associated with the Hava Bodies, the process of Dimensional Ascension through progressive Hava body merger and the dynamics of Soul Integration through Anchoring the 5th Dimensional Archetype Mind, the first level of all Hava Body merger within the process of higher identity embodiment.

Technique 2 uses the Keylontic Symbol Code of the Blue Pentagon, a morphogenetic scalar wave gridlet which is the 4th Dimensional Geometry Control Code, combined with the White Merkaba Star (for 12th-dimensional protection) to directly activate dormant portions of the incarnate's Nada Hava body morphogenetic field. Through using these geometries the conduits to receive the 4th, 5th and 6th dimensional frequencies of the Soul Matrix identity (Aphi Hava body) are opened within the morphogenetic field, chakra system and DNA. The 5th Dimensional Archetype Identity is the control center for the Soul Matrix identity (Aphi Hava Body) and is the exercise it is used to begin merger of the incarnate identity and the Soul Matrix identity for Soul Integration. Through this exercise 5th dimensional frequency is brought into the personal bio-energetic and morphogenetic fields of the incarnate, the 2nd and 4th matrices are stimulated into higher frequency activation and the morphogenetic imprints of the 4th, 5th and 6th DNA strands are processed for progressive activation. The effects of this exercise are cumulative. It is suggested to use this exercise 2 times daily: once in the AM after awakening and once in PM before sleep, for 3 consecutive weeks, then reducing practice to 2-3 times per week, once daily, in active meditation.

Topic 3 Lecture 3 Anchoring the 3-D Menorah: Germanen, Fire, Offerings and the Good Soil

Keylantic Technique 3: Anchoring the D-8 Monad

Lecture 3 discusses the Subject of the work, i.e. the point of departure (action) that exists within the "human field" and the work required to (re)identify inner and self which represents the original source of consciousness. The individual's relative connection to work source. Providing background on the Creation Process, the subject's visualization from job the use of time and the movement of consciousness are addressed along with the formation and evolution configurations of crystalline structure that comprise the scaling of the multi-dimensional morphogenetic field. Maps an evolutionary narrative in the quantum and spirituality of the human connection to the work source and the inter-energetic interaction of action.

Technique 3 uses the 8th Dimensional Geometry Code of the scalar wave guide to directly activate domain portions of the 7th Matrix Matrix Field Morphogenetic Field through which the conduits to opening the 7th 8th and 9th dimensional frequencies of the Over Soul Matrix density. Below Matrix Field are opened within the morphogenetic field matrix system and 8th. The 8th dimensional Matrix density is the lower vibrating due to the 8th dimensional center for the Over Soul density matrix Matrix Field and this exercise is a 3D 3D lower version of the Soul Matrix density. Above the body and the Over Soul Matrix Field Matrix Field for Over Soul Integration through this exercise 8th Dimensional frequency is brought into the 14A bioenergetic and morphogenetic levels of the Matrix beginning the activation of the dominant point of activation of the 8th Matrix which expects the concept of soul integration on over soul integration can begin. So under the dominant 8th dimensional activation activation increases the frequency progressively. The 7th Over Soul 3 and prepared the morphogenetic field of the 7th 8th and 9th DNA strands for progressive activation. Begin release of the 1st of the 14 linear wave the 7th Over Soul corresponds to the frequencies of vibration. 1 release of the 14 linear wave activation of the 1st 2 strands and 14 the 14 DNA strand for activation taking full manifestation of Strands 1-2. This exercise is most effective when used initially once every 3 days for the first month then reducing practice to once every 2 weeks for 3 months. Following the initial 'crystal practice unit once or twice per year is needed. More rapid results will be noticed if the Archetype the D-5 Archetype "technique is used for 1-6 months prior to or concurrently with this technique.

Type 4 - Lecture 4: Kryptonite Market Activation - Nova Renter, Crystal Cash and Market Phase

Keynote Technique 4: Keynote Marketing Activation

Lecture 8 The sun, immaterial and harmonic Merkabah Spirit is the process by which particles accrete into the Morphogenetic field up to make form. The relationship between Love Body merger waves and Merkaba Phases and forms and the matrix crystal states that govern phase lock of Merkaba Spirals to provide an overview of the processes by which the Universal Merkaba vehicle is formed in the bioenergetic field. We allow for transcriptional and mutation of form in the energetic field. The Wave and Vehicle allows for infinite dimensional turning the body matter into light and back again. The process of transformation of waveforms and through throughout various time modes of the 14-dimensional space of the Merkaba vehicle is linked to steering the consciousness mastery of time travel and is the dynamic of the personal ascension occurs. This lecture offers an introduction to the ancient esoteric science of Merkaba Mechanics.

*Technique 4 uses activation of the larger Harmonic Merkabah Spirals to induce activation of one of Harmonic Merkabah's 4 spirals to create rapid formation of the Merkabah vehicle within the bio-energetic system and to accelerate the natural processes of body merge. With activation and expansion of other Harmonic Merkabah's consciousness specific consciousness Control Centers used in specific regions of the body regions that corresponds to the 4 chakra level. The 4 spirals activate when the Merkabahless Body is able to exceed the Morphogenetic Crystal Seeds that bear the Merkabah's and Merkabah's spirals phase-locked 1:1 Harmonic patterns. The exercise begins the process of creating a 5 - Dimensional Merkabah vehicle with the 4 spirals and accelerates the process of merging the Outer Soul density, Cosmic Nova Body, the soul density, light body and the incarnate density. Make your Body is expanded Soul and her soul embodiment - new after Merkabah. This technique works to simultaneously activate 4 stages of the Merkabah vehicle which prepares the body and consciousness for transmutation - transmigration - spiritualizing and entry into Akashic Field - consciousness more quickly.

*Merkabah technique that may initiate partial activation of the Merkabah Process. This exercise used in combination with other Keyonic Techniques in this program will rapidly accelerate the process of Bio-spiritual Evolution. This Keyonic Merkabah Activation technique can be used as often as desired.

Topic 8 Lecture 3 Clearing the Crystal Body- Mirrors and Releasing the Karma, Inpart 1
Keylontic Technique 3 Clearing the Crystal Body

Abstract: Discusses upon the dynamics of the Herve Index, Chaikin's thought forms and the ultra-micro-perfects, Marika, Fertile and Plankton that form the substance of the morphogenetic scalar field, as they apply to the formation of Mesozoic crystals and the Karma, Pattern within the morphogenetic field. Provides an orientation to the true nature of "Karma" and how it can be released through several Sushu or activities.

Technique 3 is designed to begin releasing the karmic distortions from the multi-dimensional (five Bodies) reassigning the vibrational and karmic aspects of the morphogenetic etheric grids back into their original vibrational resonance in the process of Human Body integration and identity expansion can progress unimpeded. This is achieved when one is to begin perceiving the karmic Body in energy form and to begin releasing specific portions of the karmic imprint through direct energetic transmutation of karmic energies. The process progressively releases the karmic karmic imprint from the DNA and cellular coding, detaching karmic patterns from their influence from holographically manifesting into the present 3 dimensional life experience, while systematically transmuting particles and anti particles of the morphogenetic field and body back into their original Anti-Matter wave form (light). The process of particle transmutation from matter substance to wave form is a natural part of the Human Body morphogenetic etheric expansion/DNA activation-mechanics associated with finding the Meruaba Vortex and Universal Awareness. This exercise serves to transmute distortions from the morphogenetic field/DNA/body and consciousness as the natural processes of particle transmutation associated with Universal Awareness can function according to their original design. The exercise is designed to begin perceiving karmic from the morphogenetic field, to reduce the manifestation of karmic disease patterns and life dramas, and to release the karmic karmic imprints in the morphogenetic field for later transmutation using advanced karmic karmic mechanics. This technique should be done regularly as a part of a weekly regime, allowing 2 days between each practice to so any residual energies released during the exercise can process out of the bio-energetic field.

Tape 6 - Lecture 6: Activating the God-Seed: The Family of Unconsciousness and the God Seed
Keynote Technique 6: Activating the God-Seed

Lecture 8 reveals humanity's core connector to the Source of Creation - and Discussion focuses on the Family Tree of incarnations, the levels of postal identity that are held in place by interwoven multi-dimensional morphogenetic fields through which each human incarnate is intricately connected to the energy and identity of and explores the means of attaining All-in-unity with Source and Self-Healing through integration of the 5 Holographic Bodies, the role of the mechanics of Abundance, Love and Creative-fulfillment, the Monadic blueprint, God-Seed, Universal Field of Consciousness, yodanis to which we are all connected. Provides the framework through which we can reconnect to our direct personal connection to God. Also explains the nature of the Metaphysical God-Seed, the original gestalt of consciousness out of which the human lineage emerged.

Technique 6 begins the process of setting the scalar grids of the 8 Holographic Activation to rapidly accelerate the process of blending the "Star of Light" (scalar bridge) between the incarnate and the God-Seed. This process requires activation of the 4 Kae-Ra-SHA "Spirit Kundalini" at the base of the Spine and the 4th Kae-Ra-SHA "Seed Grid" is connected to the base of the growth field at birth's crown in the Halls of Amens, accelerating the release of the seed within the chakras and expediting activation of dormant DNA, chakras and the Markaba vehicle.

Activation of the Kae-Ra-SHA begins the release of the 3rd of 3 Akashic seeds. The 3rd Akashic Seed responds in the 12th Dimension, 12th DNA strand, 12th chakra and 3rd chakra in heart's crown and release of the seed allows the harmonizing of 12th Dimensions. The matter used light is not through the Man Universal, it is the energy field of the body expanding the tube to encompass the body form for transmutation into full Markaba wave form, which represents the attainment of full Inner Consciousness, Dimensional Ascension and freedom from time, space and matter. This full tube sets the entire transmutation process in motion. The release of morphogenetic seeds, acceleration of the Markaba Fields, activation of the DNA, chakras and the Kae-Ra-SHA is regulated by the God-Seed identity which keeps the incarnate's growth rate in harmony with that of the higher identity potentials, so the incarnate's bioenergetic systems can stay balanced during any Markaba vehicle activation. Frequent practice of this exercise will progressively strengthen one's conscious connection to God-Source, expanding higher dimensional awareness, perception and cognition, while safely and systematically preparing the body to achieve its potentials within the processes of transmutation and Dimensional Ascension. This technique can be used as often as desired, the effects are cumulative and more noticeable with consistent, frequent practice.

“THE TANGIBLE STRUCTURE OF THE SOUL”

An Abridged Transcript of Lectures 1 – 6

Prepared by Azurtanya Deane, April 1999

©Acheyana Deane, 1999 – All Rights reserved

Spiritual enlightenment, the quest for answers to the spiritual realities for existence, i.e. "truth" is a natural impulse, which relates directly to Cosmic Order and its cycles (particularly approaching Ascension windows of the Processional Equinoxes –and – especially the 212,000 year Cosmic Cycle).

It is not according to the cynics of the modern world some kind of faddish or coping mechanism. The process reflects instead the true impetus of all life as well as the mechanics of Creation itself. Understanding this impetus for humanity corresponds directly to the understanding of nature and design of humanity's being (and hence the true nature of the Christ story and the foundation of all-spiritual truths and esoteric teachings).

The origin of the spiritual quest and true nature of the mechanics of universal design are what constitutes the historically forbidden knowledge of all spiritual reality, thus masking the reality of sophisticated, elegant, order and a framework for the development and evolution of Consciousness itself.

"Human" design is a multi-dimensional complex of conscious energetic reality structures which exist within a Cosmic System each of which reflects each other (as above so below) demonstrating that the human system IS an intrinsic element of cosmic order.

The Energetic Order represents the means by which manifest reality comes into being. The rules of existence crucially recognise that 1, all things are made of energetic substance and 2, all energetic substance is made of consciousness. Therefore 3, all consciousness is aware, 4, all energy is consciousness and thus 5, spirituality and science are directly and inextricably intertwined. Hence 6 human reality and human consciousness are made of the same cosmic substance.

From this it can be deduced that body, mind and spirit represent a truly ordered structure which is in fact a system of mechanics, all of which is completely and irrevocably interwoven with the energy and structure of the cosmos.

Morphogenetic Fields, the Fabric of Creation

The essential first link between man, matter and the Cosmos concerns something referred to as morphogenetic (form holding) fields. Morphogenetic fields (MF) are comprised by templates of conscious light and sound which serve as blueprints on which matter forms and conscious identity will manifest. This occurs microcosmically and macrocosmically. Therefore, the universe is one massive field of consciousness embracing and containing all other forms and all experiences of reality and manifestation taking place. At the most macrocosmic level then it can be understood that the "All That Is" to which "New Agers" refer is in fact a massive MF in which all experiential reality occurs. This is the theatre of what people term "Illusion".

Within this "All That Is" (God) the blueprints for all things and all identities are held, perpetually created and renewed. Cosmic structure/order is the basis of human order and the human psyche in terms of the Cosmic Divine Blueprint, experiential reality fields are created, of templates of energy, divided into groups and energy patterns, which form the morphogenetic structure of each and all dimensions (D).

Dimensions are fixed groupings of energy within a specific, geometrically, arranged form, built upon crystallised, conscious units, of sound and light. MF's of Ds are composed of stationary points of the vibrations of sound tones which together form a fabric of tones into which smaller MFs are woven. From each fixed point of sound vibration, within each D of MF, an electrical current of consciousness emerges.

The electrical currents of consciousness emerging from the sound tones in the D MF are stationary pulses of energy which flash on and off forming what is called a Scalar Wave (SW). SWs represent fixed, standing wave patterns of conscious electrical energy that emanates from the core sound tones from which MFs are created.

When we attempt to explore the order of energy from which manifest reality arise we are exploring the mechanics and dynamics of dimensionalised morphogenetic fields, in which conscious experience takes place.

MFs can be understood as Scalar Grids(SG) or Scalar Fields (SF) made of interwoven patterns of consciousness that take the form of standing SWs – both cosmic order and human design are created and sustained upon dimensional SGs of sound and consciousness, (and it would be appropriate to reflect for a moment here on the effects of the Law of Thought and the true nature of the collective unconscious, human, mind).

Cosmic morphogenetic structure is ordered into sets of systems, each one comprising fifteen dimensions and referred to as a “fifteen dimensional matrices”. In each 15 D system, D's are grouped in sets of 3, forming a morphogenetic blue print of five 3-dimensional reality systems, in each dimensional matrix. Each reality system is called a Harmonic Universe (HU). Thus, within each 15 D matrix there exists 5 HUs, all of which represents the basis of cosmic morphogenetic order.

Understanding this is essential to the understanding of the true structure of the human organism since it is first essential to understand the organism's placement and characteristics within these dimensional scales.

Multi-dimensional Identity

The human organism, in truth, is a multi-dimensional construct. Thus, the true anatomy of the human form embraces the entire spectrum of the 15D matrix (in classical esoteric teachings this would be the forum for the soul and monadic group expression). Human identity and biology come into being as a projection of consciousness from the collective cosmic MF identity. This collective is a massive gestalt of conscious identity which is referred to by many names: God, Source, Prime Creator, Great Central Sun, etc etc.).

Human identity comes into being as a projection of consciousness arising from “God Consciousness”. As a result of the projection of consciousness which produces and subsequently manifests in the MFs of the 15D matrix systems. The stream of consciousness through which humanity manifests emanates from the SGs entering the 15D system through the 8D portal, subsequently spreading upward and downward through all D's of the 15D matrix. This directly creates the morphogenetic blue print of the human multi-dimensional form.

The blue print of human consciousness follows that of all dimensional systems, consciousness is broken down into 5 sets of 3Ds forming separate, but interwoven, morphogenetic bodies of light and sound within which portions of consciousness are carried.

The 5 dimensionalised bodies of human anatomy, representing distinct portions of identity and awareness, then manifest in "time". Each has multiple expressions of identity in which singular identities and biologies are created. Each corresponds to different aspects of the human body and psyche. The 5 dimensionalised bodies are storehouses of all human consciousness, though conscious physical identity itself is primarily located in D3, intuitive identity in D2, and subconscious identity in lower D2 and D1. This illustrates how the dimensions act as SGs (better understood as bands of frequency where portions of multi-dimensional identity are stationed).

Understanding human nature requires more than just understanding the lower dimensions simply due to the fact that true human anatomy is comprised by a multi-dimensionalised structure bridging various expressions of conscious identity.

Therefore, incarnate identity exists as one part of a large identity gestalt stationed in the higher bodies.

Higher dimensional identities represent more energy, and therefore more conscious awareness, than lower identities, representing the super-conscious aspects of mind and being. This consciousness is unseen, but is manifest, each aspect simply lies beyond the human perceptual range (wherein lie the additional seven 'senses').

The true process of human evolution is concerned solely with the incarnate's expansion of perceptual consciousness into higher dimensional fields which are outside the perceptual range of the human incarnate identity. Nevertheless it is correct to assume that the physical body and biological form is constructed from the same energetic substance that the entire multi-dimensional self is made from; the conscious, electrotonal scales/grids of the multi-dimensional, morphogenetic anatomy.

Physical anatomy, matter solidity, external space and linear passage of time are illusions created by specific ratios of vibrational movement and angles of perception between various levels of identity which "separate" all the bodies. In truth, everything exists as interwoven conscious energy patterns that is, MF's that take the form of SG's which serve as store houses of consciousness.

Yet when dealing with human evolution, and expansion of incarnate identity into higher reality fields, the object of focus concerns the morphogenetic energy process. It is this central truth which provides the scientific translation of the nature of all spiritual evolution.

Evolution

The higher bodies manifest as a direct function of human DNA; the content of which determines the life path, and circumstances and contours of conscious awareness that will manifest in each incarnation. That is to say these higher bodies govern the blueprint on which human experience manifests as physically incarnate experience.

Evolution therefore takes place as a result of explicit morphogenetic field and higher body dynamics. Evolution, identity, integration and the higher bodies represent the interwoven nature of consciousness, and bodies, through a progressive integration of each body in turn (or each dimensional aspect associated with each higher body)

Merging these bodies represents the key to spiritual enlightenment, opening human incarnate perception to higher levels of consciousness. This means progressively transmuting physical existence into progressively less dense states of matter – finally integrating all its dimensionalised parts, ultimately returning to its original state of pure conscious identity.

The progressive transmutation of physical form, and integration of higher states of consciousness, IS the ordered design behind and within human evolution. This can be thought of as 'vertical evolution' or otherwise dimensional ascension. Either way, this represents the individual incarnate's connection to 'All That Is' or God

The Process

The process of merging the physical and higher bodies is made manageable by working with energetic exercises designed to assist and expedite the integration of higher identity levels by setting the process in motion.

The dimensional bodies are referred to as 'Hova' bodies which can be thought of as a housing for specific aspects of identity. The consciousness which dominates one Hova body can be employed to facilitate the merger with another. The bodies can be described as follows.

- No.1 – 1D – 3D Incarnate identity
- No.2 – 4D – 6D Soul identity
- No.3 – 7D – 9D Over soul identity
- No.4 – 10D – 12D Avatar / Christed identity
- No.5 - 13D – 15D Rish , 'I Am This', Monadic identity

(the monadic identity is the first station to emerge beyond 'time'. It is also the station through which connections are made to the 3 higher gestalts of consciousness which is outside of all dimensionalised, experiential, reality. The realm of TRUE Ascended Masters!)).

The process of integration is actually based on simple energetics - at least from the standpoint of setting the process in motion. Essentially, each body contains three levels of identity or three 'Aspects of Mind', from within which one level directs the function of the other two levels of Mind. This, controlling consciousness can be used to affect the merger of one body into the next.

These aspects of mind exist as dimensionalised frequencies of consciousness representing the merging of dimensionalised frequency bands. Therefore, from the incarnate standpoint, the action of conscious mind calls into action the Soul Mind. In classical inner mystery school teachings this is referred to as 'Soul Merge'.

The human incarnate at this point has successfully begun to integrate the frequencies which compose soul identity; the physical body having expanded to accommodate up to 4D awareness, perceptual range and memory.

Soul integration represents the first stage of spiritual enlightenment of the multi-dimensional personality

Exercises work to bring forward the control aspect of the Soul Body archetype focused at the 5D, and it is this frequency which is integrated with the lower frequencies of the physically embodied incarnate. Persistent use of appropriate exercises/methods stimulate the opening of the chakras to receive infusions of 5D frequency light, which in turn affects dormant DNA codes. It is the stimulation of the DNA codes which produce the expansion of wisdom, memory and consciousness of the embodied soul. The incarnate personality is not negated during this but instead expands to reclaim portions of its memory and awareness.

This process is quite literally, and energetically, a function of the higher consciousness calling itself home. Through the process of dimensionally descending (from 8D) human consciousness literally fragments into dimensionalisation and individuation in order to experience the manifest illusions of time and matter.

In order to perpetually grow, expand, evolve and renew itself, human consciousness reassembles fragments of its identity and returns back to its source, through which the process of dimensional ascension is created (revealing the intrinsic order and purpose of the universe and the integration of the multiple bodies, identities and levels of consciousness).

The key to the process, from a human perspective, concerns the utilisation of Symbols and Codes inherent to the Language of Light (Keyiontic Science); it is this source which provides the very fuel which returns human bodies to harmonious order, rendering them receptive to the frequencies of higher levels of consciousness.

Unique Cosmic Identities

Every person has a unique identity and individuation which lies outside of all time/space dimensions. This identity is called 'the Seed of Consciousness' – the original point of origin, the spark or ember of God, the Permanent Atom. This seed relates to the origin of all manifestations and incarnations. The seed retains its original integrity of design in all ways. Once it reaches individuation it enters the 'Time Matrix' upon an energetic projection which we would call 'a stream of consciousness'. This stream of consciousness represents a specific signature of energy (electrotonal units of consciousness) that retains the original identity set within the original seed of consciousness, or permanent atom.

The original individuated ("human") design exists as specific constructs of fixed points of frequency - sound vibrations that form units of light which amount to standing scalar wave patterns. The scalar wave forms composing the consciousness are referred to as geomancies and fire letters. These are patterns of specific standing scalar waves that give consciousness its individuated form in time.

Geomancies and fire letters are the building blocks the God Mind uses as the processors of Creation. Geomancies are composite groupings of fire letters. Fire letters are composite groupings of standing scalar wave patterns built upon fixed vibrations of sound. The stream of consciousness can thus be viewed as a constant stream of light and sound energy composed of geomancies, fire letters and standing

scalar waves through which the pulse of God Mind perpetually spirals consciousness into individual on and manifest form

When this consciousness enters the dimensionalised structures of the Time Matrix (which itself is a standing scalar wave field built upon fixed points of sound vibration) its original arrangement of fire letters begins to change. The original stream of consciousness and fire letter arrangements breaks down fragmenting its consciousness through the dimensional scale producing new forms of individuation.

The new forms are imbued with the conscious creative thrust of the original stream of consciousness, which continues to create new specialisations of consciousness and new forms through which consciousness manifests. This is called 'stair step creation'. The process of stair step creation can be viewed as a singular beam of **light & sound** - **stream of consciousness**, holographically refracting within the scalar fields of the Time Matrix spreading itself into multiple beams ('Sacred Rays'). Each is imbued with portions of these qualities, attributes, fire letters and consciousness that were contained within the original beam or stream of consciousness.

Each new beam of light & sound consciousness, that is formed through the splitting of the original consciousness, retains part of the original flame letter design of the original stream; it also creates new, smaller, streams that manifest as further differentiated identities and manifest forms. Through this process of scalar wave splitting and refraction, the blue prints or MF's for conscious life forms are created in time.

In relation to human form, which itself exists as a multi-dimensional scalar wave construction – a living MF – the structure of dimensionalised consciousness takes the form of the 15 dimensional identities. These levels of individuation are formed as consciousness spirals its way outward through the stream of consciousness from the seed of consciousness, into dimensionalisation. The various structures of multi-dimensional human consciousness exist as forms of sentient awareness identities possessing attributes and form characteristic of the dimensions on which they appear.

All in truth, are mental constructs thought forms, MF's, within the eternal God Mind. Each of these conscious identity levels are unique to themselves, yet simultaneously, are all connected to each other and the original stream of consciousness contained within the geomancies and fire letters within the design of the original stream and the original seed. All identities, including those physically incarnate, are ultimately connected to Source through the multi-dimensional stream of consciousness from which they were collectively created.

The reality of evolution is then the process by which the smallest fragments of individuated identity that have spiralled into the Time Matrix, progressively re-emerging with their original parts. Through this re-integration of identity the individuated consciousness progressively expands back into its original wholeness rebuilding the original stream upon which it entered dimensionalisation.

This is achieved by reassembling the fire letters and scalar wave patterns of the original seed of consciousness – thus – the manifest forms progressively change from the dense matter form of the lower dimensional field, to the pure scalar wave

radiation forms of the highest dimensions. When the original identity has been reassembled the sentient consciousness then expands beyond the Time Matrix returning to its original form as the sentient seed consciousness existing in co-creative At - One - Ment with God Source. This is the place of true Ascended Mastery.

The clear cut path of evolution is then a simple case of rebuilding the original fire letter scalar wave design of the original seed and stream of consciousness. Through this process the consciousness traverses 'backwards' spiraling through the original beam of light & sound upon which it entered dimensionalisation and then re-expands back to its original form (the nature of this process has been referred to by others as the Science of the Antakharana which is a teaching inherently limited to 9-D where the Antakharana ends and the Maharata begins leading to the Primal Light and Sound Fields of the Kee RA Sha and Khundaray)

Each time a conscious seed is sent forth into the Time Matrix, breaking itself down into dimensionalised individuated identities it then re-evolves through the re-assembly of its parts to attain freedom from the Time Matrix and the experiential realities it encountered through its journeys in time

God Source

The experiences in time add to the content of the original seed of consciousness as a result the expanded seed of consciousness then sends forth a new stream of consciousness through which a new, expanded, design of identity is cast into the Time Matrix for evolution. The processes of creation and evolution are eternal. The experience of each individuated expression adds to the content of the whole, and the God Source and yet the original pattern of the whole remains indelibly, eternally, intact

The eternal force, Heart-Mind of God, is an unquantifiable construct of energy, consciousness, cognition and identity. Pure, sentient, creative force. This force perpetually expands through new manifestations of itself though it remains perpetually the same. This is so, since the perpetual expansion of creation is balanced eternally by a reciprocal contraction - eternal stillness, the Great Void

The force contains within itself, as a natural attribute of its being, a balance between stillness and motion, expansion, contraction, order and chaos, darkness and light, creation and the void within which creation takes place. Together, these attributes represent the eternal state of 'Is-ness', without beginning, without end, the very Beingness of God. Through this state the Cosmos is kept in perpetual balance, eternal stillness, eternal motion, and unending creation.

In the process of perpetual evolution, particularly in relation to human consciousness the intended path held within the seed of consciousness is the reintegration of identity for its eventual return to At - One - Ment and co-creatorship with God Source

This process works well within the overall scheme of things but in terms of individual evolution the evolutionary experience/process can provide quite a challenge. Once the seed has cast its stream of consciousness into the Time Matrix the fire letters, scalar wave design, of the original consciousness,

frequently breaks down or becomes distorted through its inter-action with the dimensionalised fields of 'reality' In terms of the human experiment, this occurs because the seed of consciousness for the human form is imbued with free creative will.

Free Will = "Creative Choices"...?

Identities in time have the power of choice, and the power of creation, within the boundaries of the seed of consciousness. Individual identities in time have the ability to refuse or accept the impulse for evolution as set by the seed of consciousness. Through free will, new creations can be experienced by the individual which ultimately add to the experience of the whole, but free will can also create a dilemma for the identity in time.

Due to it's experience in dimensionalised consciousness, the individual frequently makes choices that results in a distortion of it's fire letters and scalar wave patterns through which it is connected to the original stream of consciousness. Distortion of an individual's fire letter design (which manifests through the MF and also within the genetic code of the individuated physical body) disables the individual's natural ability to re-integrate with the fire letter patterns of the original stream of consciousness. When this occurs literal energetic breaks appear within the multi-dimensional identity structure, corrupting (and eventually severing) the stream of consciousness which tethers the individual identity to its seed consciousness within the God Mind. (this is directly related to matters concerning the Soul Matrix and related concerns relating to soul fragmentation, possession and robbery)

If an identity is severed from its original stream of consciousness, that identity can no longer draw life force substance to itself directly from the God Source: this can only be done through the identity's connection to the seed of consciousness. The identity therefore becomes finite in nature, trapped in time, perpetuating its existence by drawing life force indirectly from other life forms that still possess a connection to their seed of consciousness. Eventually such finite identities lose their ability to hold the original fire letter design of their own individuation, and fragment further in time, ultimately becoming undifferentiated units of consciousness within the energetic structures of the dimensional fields.

This is the process of de-evolution and though it is a natural part of the intrinsic dynamics of balance, it is the antithesis of the original intention set by the God Mind for the evolution of the human race.

No being is ever separated from the God Source simply because all energy is a manifestation of the consciousness of God and all manifestation takes place within the confines of the God Mind. The difference between evolution and de-evolution therefore becomes a matter of the difference between the experience or the 'non-experience' of God, (or of the cognition of the awareness of God)

The pattern of de-evolution leads to fragmentation and non-differentiation of identity and loss of the cognition of the awareness of God - while still remaining as unknowing, unordered consciousness within God. The path of evolution then, can be viewed as the progressive expansion into active awareness and participation with 'Godly Identity'

For human incarnates, the process of evolution is the process of the progressive integration of the original stream of consciousness achieved by the progressive accretion, the drawing within oneself of the MF, reassembling fire letters scalar wave patterns and the seed of consciousness. If this stream of consciousness has been broken or distorted on any level of fifteen dimensional human identity the identity will be trapped in time unable to re-integrate with the seed of consciousness until the fire letters from the stream of consciousness are restored.

In simple terms the way out of the Time Matrix is to follow and re-integrate the stream of consciousness upon which one entered the Time Matrix. This is the Path of Ascension. Dimensional ascension is the purpose for, and process of, evolution. The seed of consciousness eternally held within the God Source is the key to re-assembly of the seed of consciousness. It is this seed which holds the original pattern of identity and individuation the original fire letter scalar wave design that birthed the stream of consciousness into manifestation.

Identities in the Time Matrix regardless of the amount of distortion in their connection to the original stream of consciousness, (distortions in DNA structure and circuitry) possess at least a minute fragment of the original seed of consciousness. One fragment of the original fire letter scalar wave design that originally connected them to the God Source. This fragment is called 'The Spark of the Living Flame' and it contains within itself the potential to regenerate the original fire letter design of the seed. Regeneration of the identity's connection to the stream and seed of consciousness is not a simple process that happens over night, it can take many incarnations and cycles within the Time Matrix to complete.

But, reconstituting the incarnates connection to its original stream of consciousness through regeneration of the original fire letters, in the right patterns, is well worth the effort. This holds promise of fulfilment of individual evolutionary destiny – returning to the original splendour of a sentient co-creative force within the Heart of the God Mind.

The pinnacle of human evolution is to achieve the return of the individual identity to this point of original innocence.

The 8th Dimensional Spark of the Living Flame

The key to human evolution is the 'Spark of the Living Flame' which is the intrinsic, minute, fire letter scalar wave pattern that connects individuals to their original seed and stream of consciousness. This spark exists within the human bio-energetic structure as a dormant, fire letter scalar wave pattern. When activated the spark opens new chakra centres in the body allowing new frequency patterns to enter the MF's and DNA. Through activation of the spark, the process of reconnecting the stream and integrating multi-dimensional identity is set in motion. The 'Spark of the Living Flame', which connects the human to the seed of consciousness, beyond time, is composed of the fire letters, scalar waves and tonal patterns of the 8th D.

In the human body this spark exists as a minute crystallisation of radiation located between the 4th and 5th chakras, within the area of the thyroid gland. The spark can be brought back into activation through specific techniques (the Song of Orion or "Om A Da" being a major one). The Spark of the Living Flame is known as the Shield of Orion – the Gaian Shield. Activation of the Shield of Orion begins the

activation of the 8th Chakra within the body and imprints the MF with the fire letter design of the 8th DNA strand within the silicate matrix gene code. This process begins activation of other gene codes and bio-energetic structures within the human body and consciousness.

Through activation of the Shield of Orion the individual's connection to the original stream of consciousness can begin to reassemble within the embodied human consciousness and the Path of Ascension can be properly and correctly resumed.

Activation of the Shield of Orion sets in motion the reintegration of the 8th dimensional aspect of identity: the Monad, the centre of the Oversoul identity, this is called "anchoring the Monad". The result is to imbue the MF with the correct fire letters, scalar wave and tonal patterns, activating 8th dimensional frequencies within the MF.

The 8th strand of DNA will not activate within the manifest human gene code until DNA Strand 7 and below have fully activated. But the 8th dimensional frequencies of the Shield of Orion will stimulate into activation, and progressively reorder, the fire letter scalar wave patterns of the dimensional identity levels and strands below.

The MerKaBa & "Light Body"

The MerKaBa (MKB) is represented by a system of spiralling electro-magnetic energy (EM) constructs within and surrounding the body that manifests in the form of interwoven counter-rotating star tetrahedrons – two pyramids together combining to form a Star of David. The MKB forms as a natural product of merging the multi-dimensional MKB spirals which arise as a result of the evolutionary process and integration of the 15D levels of identity.

MKB spirals are sets of counter-rotating EM fields that exist as part of the organic form of construction within the dimensionalised universes of the Time Matrix. All dimensionalised manifest forms, and forms of consciousness within time, are created through sets of MKB spirals. MKB spirals draw energy and consciousness from the dimensional unified fields to the MF, the form holding blueprint of a being, feeding it a continuous supply of energetic substance through which particles build up to create manifestation of the blueprint in matter.

MKB spirals are a natural part of the hidden dynamics of creation. Every manifest form in time has sets of dimensional MKB spirals through which physicality or external manifestation is brought into being. The human form has 15 MKB spiral sets one for each dimension of its morphogenetic structure.

MKB fields exist not only in individual structures of dimensions but also in the larger fields of the Harmonic Universes. The 15D Matrix is structured in such a way that HU 1 & 2, v 4 & 5 have one half of a harmonic MKB set and HU3 as the centre of the 15D Matrix has one complete set of harmonic MKB spirals. The partial spirals of HU1 & 2 and HU4 & 5 co-join at certain times, and under certain conditions, forming complete harmonic MKB spirals which allow these Universes and their inhabitants to energetically connect with HU3 (8th D).

HU3 connects to the central core of the Time Matrix 8D, the original point of entry and point of exit for the Time Matrix, when a being has completed its evolution in time. The interlocking harmonic MKB spirals serve as an energetic conduit through which consciousness can enter and leave time. Harmonic MKB spirals represent pathways of spiralling energy, through which all things in dimensionality are connected, and through which dimensional forms of consciousness can return to their former non-dimensional, states of being.

MKB fields play an important role in dimensional ascension. Each of the bodies of HU1-5 exist within, and through, discreet MKB spirals, and, the integration and transmutation of bodies take place through the dynamics inherent in the higher bodies. The dimensional MKB spirals are locked into each dimensional band through the morphogenetic blueprint of the higher bodies. This blueprint keeps the identity and its manifest body locked within a three dimensional HU system and into the time cycles and space co-ordinates of that system. The harmonic MKB spirals are likewise locked into their harmonic universes keeping the five HU bodies and 15D identity levels separate in time and space.

In order for the HU bodies to merge through dimensional ascension, the harmonic MKB spirals must be released from their rotational speeds of their harmonic universes so that they may come together and merge. Release of the 5 harmonic MKB spirals releases the 15 dimensional MKB spirals contained within them and through this process the consciousness and bodily molecular structure of the five 3-dimensional identity levels is freed from its placement within space and time.

The dynamics by which the harmonic and dimensional MKB spirals are released, from their phase lock in space-time, is quite complex. The MKB spirals are locked in time through a series of morphogenetic structures called morphogenetic crystal seals. Through opening the crystal seals the MKB spirals release allowing the merger of the five HU bodies, expansion of identity and consciousness, as well as transmutation of cellular form.

Through the process of merging the HU bodies and MKB spirals a structure of light, sound and electro magnetic scalar standing waves, is progressively formed around the body giving the body-form, and consciousness, progressively more freedom of movement throughout the dimensions and universes of space-time. This structure of wave patterns is what is called The MerKaBa vehicle (MV).

The MV forms in stages with the progressive integration of each HU body and group of 3 identity levels. The position of the harmonic MKB spirals, when they are locked into their respective HU's is called The 'Nethra Phase' MKB. Nethra Phase represents a 3-dimensional MKB vehicle.

1.

The first stage in assembling the MV occurs with the merging of the HU1 and HU2 body/identity systems, i.e. the earthly incarnate with the Soul Matrix identity (referred to as 'Hara Phase'). This process creates the common bi-pyramidal MKB vehicle otherwise referred to as the Star Tetrahedron which facilitates movement between HU1 and HU2. Through this wave pattern structure a state of physical relocation of the identity, within corresponding space, time co-ordinates in HU1 and HU2, takes place, the consciousness can simultaneously experience life in HU1 and HU2, and the identity becomes a fully embodied soul. In this phase, DNA strands 1-6

inclusive (of a twelve strand silicate matrix genetic code) come into action. Thus 'Haila phase' represents a 6D MKB vehicle.

When the HU3 body merges with bodies from HU1 and HU2 the MKB vehicle changes form, entering Quattra phase, as the Oversoul begins to merge with the Sou identity. The Quattra phase MKB is a tri-pyramidal construct through which the identity in HU1 (bilocated during Haila phase) is turned into a Light-Wave pattern and manifested fully within HU2 in a less dense version of its matter body. The Quattra phase MKB looks like the Star Tetrahedron with two extra legs (i.e. an 8-pointed star). This MKB is capable of transporting its owner between HU1,2 and 3. The identity becomes a fully embodied Oversoul with DNA strands 1-8 activated within the genetic code and therefore the Quattra phase MKB represents a 9th dimensional MKB vehicle.

With integration of the HU4 body and Christ identity the MKB again changes form as yet another MKB spiral is added to the MKB vehicle, this is the Mahunta phase. This Phase creates a four-pyramidal structure identical to 2-interlocking Star Tetrahedrons at 90 degree angles to each other. The appearance of this MKB is as a 10-pointed star surrounded by a rotating ring of multi-spectral light. All 12 strands of DNA will be activated.

The integration of the HU5 body is referred to as the Rahunta phase and the MKB which manifests at this level has two additional "legs", one above and one below, creating a 12 pointed star surrounded by two multi-spectral rings. Such a MKB can only move between HU3 and HU5 because it would vaporise matter and life forms if it came into direct contact with the lower HU's.

HU5 consciousness is a pure radiating energy in the shape of the Rahunta MKB vehicle and is totally capable of fragmenting itself into lower phase MKB vehicles as a means to interact with lower HU's.

When an identity evolves beyond HU5 it begins to incorporate non-dimensional reality fields of the Energy Matrix – the area within which the energy and consciousness of the Time Matrix resides.

The Universa Body of Light, or "Rishi" Body first evolves to be a geomantic entity within the Triadic Level of the Energy Matrix, just outside of Time, just beyond the meta-galactic core at the 8thD. The MKB form of the geomantic entity (Tinatra) appears as an elongated diamond form comprised by two elongated 3 sided pyramids surrounded by three rings of multi-spectral light.

The rapid counter-rotating spin of the elongated pyramids give this MKB vehicle the appearance of a *Sphere of Fire*, surrounded by rings of fire. Entities existing thus remain at the Metagalactic Core just beyond the 8thD and send forth to the Time Matrix fragments of themselves to evolve within the 15D system.

In terms of human earthly evolution, most of us have a long way to go to get to this! Most humans are yet working toward the first stages of their Haila-MKB vehicle and 4thD consciousness. However, we can accelerate our spiritual evolution and expedite the merging of these bodies by using certain techniques to release the morphogenetic crystal seals which keep our MKB spirals locked into our present space-time locations. This is done by releasing specific geomantic control codes in

specific regions of the body in order to affect the morphogenetic structure of the higher bodies, directly, beginning the process of releasing the crystal seals that keep us in the Nethra phase MKB vehicle. Thus we can accelerate activation of DNA 4 – 9 and the integration of the HU1 – HU3 bodies.

Please Note

Whilst undertaking such development it is very important that we become more aware of thoughts and intentions we hold, at any given moment, on a conscious level. It is vitally important that humans recognise the nature and power of the contours of the mind.

Thoughts are things in literal energy terms. Thoughts create MF's which then take on a life of their own – creating energy which become manifestations in both matter and event. **Our thoughts will take us backwards or forwards in our quest for evolution and thus we must establish our responsibility for re-programming thoughts which no longer serve our intentions for growth.**

Manifestation & Anatomy

The physical human body emerges into manifestation as a result of intricate multi-dimensional, dynamics of light and sound – the basis of the true secrets of physical manifestation. All manifest forms including biological systems, emerge into physical manifestation through a complex system of energetic structures that span the sets of 15 dimensional frequency bands upon which multi-dimensional reality fields are ordered. The physically manifest aspects of the human body represent only one small portion of true human anatomy.

Beneath and beyond the apparent manifest aspects of the physical structure lie the true energetic foundations upon which the human form is built. In human anatomy, subtle energy structures, such as the bio-energetic auric field and the chakra system exist as greater parts of human construction. However, beyond these subtle components the human form also possesses an ordered structure of tangible form that spans various matter density ranges, within the 15 dimensional scale.

A little known portion of human body is that of the higher or Hova bodies – the multi-dimensional grids of light and sound upon which the physical particle base of the body is manifest. The Hova bodies are scalar grids, interwoven networks of standing scalar wave patterns that emanate from fixed points of electro-tonal frequency which serve as templates of consciousness for particle manifestation.

Morphogenetic Fields & the 8 Hova Bodies

There are 8 primary Hova bodies within the multi-dimensional structure of human anatomy and consciousness – and collectively, this energetic web-work of order is referred to as "the Morphogenetic Field"

All manifest forms including thoughts themselves possess MF's which exist within the greater MF's of Universal and cosmic structure. MF's are composed of literal energetic substance, crystalline, micro particle units of electro-tonal consciousness. These are referred to as . Partiki, Partuka and Particum). These crystalline micro

particles of conscious electrified vibrating energy group together to form strands, then grids, of crystalline light and sound

The crystalline light/sound particle grids of MF construction form along specific geometrical designs with the dimensional scale creating the base templates along which consciousness will manifest itself into solidified forms. The MF's or templates of conscious energy, upon which matter and sentient identity manifest, are composed of crystalline micro particle units and so these MF's are often referred to as 'Crystal Bodies'

In terms of human anatomy the multi dimensional MF contains the eight Hova bodies and the levels of conscious identity that correspond to them collectively, the eight bodies of the MF are called the Human Crystal Body. The HCB is the vehicle through which consciousness manifests itself into individual identities in time. The physical form manifestations created through the HCB and its inherent Hova bodies only appear physically solid when viewed from specific dimensional levels of perception.

As a general rule energy patterns, or MF's, that are stationed in dimensional bands precisely one dimension below or one lower station of consciousness, will be perceived as physically solid manifest objects and events. In truth nothing is really solid and all things exist as conscious identity and energy

The human physical form is no exception. The human body is a multi-dimensional thought form that exists as a portion of the personal consciousness – part of the identity of the morphogenetic HCB. There is little difference between the substance of a thought, and the matter substance of the physical body other than the dimensional level of consciousness from which they are perceived

The portion of the HCB that appears to you as the physically manifest body is a portion of your energy identity that exists one dimension below your present moment state of consciousness. The quality of perception that you perceive as thought is a portion of your energy identity that exists within the same dimensional bands as those in which your consciousness is presently stationed. You have not yet moved the station of consciousness one dimension above the thoughts so the thought form portions of your energetic makeup do not appear yet as solid, or as external manifestations.

Once your attention has left the thought form and moved one dimension above its dimensional placement, that which you once knew as an inner thought form will become part of the physical body or externally perceived reality field

As your consciousness evolves up through the 15 dimensional scale you will continue to perceive the portion of your multidimensional crystal body that is one dimension below your focus of consciousness as if a physically manifest form. As your consciousness proceeds upward through the dimensional scale and progressively perceives as solid the energy patterns in the higher dimensional fields, the characteristics of perceived matter density begin to change

In faster vibrating dimensions matter solidity will appear less dense and more mutable than matter density levels in the slower vibrating lower dimensional fields

Eventually one evolves to states of consciousness in which no matter density, or externalised perception, occurs at all – and all things are known as a state of 'At-One-Ment' ... through direct cognition

The multidimensional HCB holds the design and promise for evolution of consciousness into such exalted states of cognition and all human consciousness will eventually evolve beyond all identity with physical matter substance, through progressive integration and expansion of the eight Hova bodies. While consciousness is stationed in the MF of an earthly human body the illusions of solidity and externalisation will remain. It is helpful to realise the truth energetic nature of human anatomy and morphogenetic constitution when one resides in such a form – for the human MF crystal body is directly and continuously affected by the content of the consciousness that is stationed within that form.

The thoughts you think are composed of ultra micro particle units of consciousness. They represent mini MF's that become part of the iterative energetic substance of the crystal body upon which your physical body and manifest reality pictures form. Thoughts are things in energetic forms and quite powerful things as well, for they are the creative substances out of which morphogenetic templates for matter manifestation are created.

Thoughts form mini crystal bodies of their own, which become interwoven into, and affect the function of, your personal HCB. You will perceive your collective functional thought body as manifest substance, an event, when your consciousness has expanded to incorporate the frequency bands contained in the dimension one level above the dimension in which the thoughts were held. Every time you think a thought, you are leaving an MF, or crystal body imprint, behind within the dimensional frequency bands in which your consciousness was stationed.

You will run into that thought pattern, in combination with others, from the collective consciousness – as a manifestation in physical reality. Remember, MF's are the form holding templates of consciousness through which matter forms and are manifest. When an MF is created it begins to draw frequency patterns into itself from the dimensional unified fields of energy, expanding, accreting, and fleshing itself out into matter. Have you ever considered where thoughts go once your attention has left them?

Part of what appears to you as manifest reality now represents your thought forms and those of the collective masses, that were left behind as MF's when your conscious focus of attention was stationed in a dimension below your present focus. Part of what you see before your eyes represents the living thought forms of your past selves, from this incarnation and those previous – and – those of the masses.

Your thoughts become MF's within your personal HCB and within the morphogenetic CB of the earth. Your thoughts are planted in the frequency band where your consciousness is presently stationed – left within your present time, to be discovered as manifest objects and events once your consciousness has moved ahead in time and evolved beyond them.

Thought forms from your past moments and incarnations which are composed of more dense, slower moving particles of lower frequency bands manifest within your HCB and within the cellular structure of your physical body. Lower vibrating

disharmonic past thought forms that become trapped within the HCB, are called *miasms*. Miasms distort the natural flow of energy and identity through the HCB and physical form impeding the processes of evolution. Miasms are the morphogenetic imprints responsible for creating the manifestations of disease and disharmonic conditions within the body and the life drama.

The collective body of lower vibrating miasms buried within your HCB is frequently referred to as your 'Karmic Imprint' or 'Karmic Debt'.

The KI is nothing more than a body of energy – though sometimes rather large, of crystallised miasmatic thought forms that have built up within the HCB throughout various life experiences – and – which serves to inhibit the natural expansion and evolution of consciousness into higher states of being. Miasmatic imprints affect the design and function of the DNA and the body form itself and they operate as energetic blockages to the natural evolutionary processes of Hova body integration.

The miasmatic/KI leads through one lifetime to another through the Collective Crystal Body Morphogenetic Field – out of which separate incarnational identities emerge.

When the original human genetic code operated according to its original 12 strand DNA form, the HCB progressively transmuted the miasmatic blueprints as the identity evolved. Through the process of embodying the higher identity levels, disharmonic, miasmatic thought crystallisations were easily transmuted and realigned through the identities of the higher dimensional bodies. An excessive build-up of miasms in the HCB did not occur in this case, and thus the earthly identity was able to evolve in time with less matter density, free from the KI of ever increasing miasmatic build-up within the HCB.

Within the operations of the human gene code, as it is now arranged, the natural immortality of the body has been reduced to cycles of birth and death, reincarnations from which the miasmatic imprint continues and is passed from one life to another. Due to distortions in the HCB, and DNA, the miasms from each lifetime are compounded. These patterns are replicated in each life experience, creating a burdensome collection of ever growing miasms of karmic debt within the HCB. The MF of the miasmatic KI further distorts the natural function of the HCB and inhibits the integration of the higher dimensional bodies through which the miasms could be transmuted and returned to harmonic order.

The miasmatic thought forms of past and present moments, and of other incarnational selves, will manifest themselves in the present human body and replicate themselves into future manifestations, until the slower vibrating miasmatic crystallisations – frozen thought forms – are raised to a vibrational speed sufficient enough to dissolve the miasmatic crystals. This process is slowly accomplished through the evolutionary process as each person 'walks through their karmic dramas, processing karma in the traditional manner'. This is the hard way of learning to clear the HCB, aligning the earthly identity with the higher identity levels.

If it can be understood that karma is nothing more than a build-up of slower vibrating, disharmonic miasmatic vibrations within the HCB, then this burden can be readily dealt with in its true form – as energy! Working directly with the frequencies of the higher identities the earthly identities can transmute or burn off much of its K by directing specific frequency patterns directly into the miasmatic crystallisations.

The miasmatic crystals of the HCB, which make up the KI, can be shattered and their energies realigned through direct application of higher frequency. Breaking up miasmatic crystals and transmuting their trapped energies into higher order progressively clears the burden of KI within the personal HCB.

It is the miasms of the KI in the personal MF that cause disease and disharmonic manifestations to erupt into the life drama. By removing the miasmatic imprint directly one can begin to realign the life direction and physical health of the body within the harmonious path of evolution. The harmonious path of evolution – often called the 'Heroic Probability' – is the original morphogenetic body crystal design through which progressive and unimpeded integration of Hova body identity occurs. Evolution of consciousness in time, that is unimpeded by disease or pain, is the result of an undistorted energetic alignment between, and progressive integration of, the eight higher bodies which compose the human morphogenetic anatomy.

The KI and miasmatic build-up that presently plagues earthly human consciousness is not an organic part of the original human design but is rather the manifestation of Hova body and DNA distortions that were put in place within the HCB and genome, aeons ago.

By working consciously to dissolve miasmatic crystallisations within the HCB its Hova body and DNA distortions can begin to be corrected and realigned within the natural structures of multi-dimensional anatomy. Through this process of realignment, the KI and its undesirable manifestations can be progressively produced and transmuted, freeing the earthly consciousness to evolve along its natural and intended path of vertical evolution, or dimensional ascension.

Dimensional ascension of consciousness is the result of consciously expanding throughout the dimensional scale as a result of progressive integration of the morphogenetic Hova bodies. Clearing of the KI is the return of consciousness to the true innocence of the Divine Essence through which a clear path of vertical evolution, dimensional expansion, and identity integration is revealed.

By dealing with the Karmic Miasmatic Imprint on its own terms, as energy – with energy many unpleasant conditions and circumstances within the physical body and life drama can be avoided. Miasmatic imprints that are transmuted through direct energy work will not manifest into karmic patterns you must walk through in your physical life.

The Collective Conscious

Every individual being in the Universe exists as an intrinsic part of a greater collective consciousness from which it's being originally emerged. This multidimensional collective consciousness is known as the 'Family of Consciousness' and every individual is connected to it through a Multidimensional Family Tree. Each earth human has, by the nature of its existence, a family tree of consciousness through which its identity has emerged into individuation and into its present moment of space-time orientation.

The Family Tree of Consciousness spans many space, time and dimensional fields following the intrinsic 15D structure of Universal Design. Within the sets of 15D

matrices and their inherent sets of 3-dimensional systems (HL's) the family tree of consciousness branches outwards into each HL creating a myriad of different individuated forms.

In every human family tree of consciousness smaller identity consciousness gestalts are formed in each of the five HL's. This reality produces a universal web of identity through which each individual member retains its connection to the source of its creation which lie beyond the dimensional structures of the 15D time matrices.

The smaller consciousness gestalts within the 15D matrices (that compose the time matrix) follow specific designs of energy that are intrinsic to the energetic composition of universal and cosmic structure. Cosmic structure is designed upon wave grids or complex patterns of energy weavings that form sets of interwoven, unified fields of energy that co-exist within one gestalt, unified field, known as the Mind of God.

The unified fields of energy that make up the infinite contours of the God Mind gestalt are composed first and primarily, of units of consciousness of the God Mind. These units of consciousness are known scientifically as: partikl, partikae and partikum group into complex geometrical patterns forming first strings, and then groups, of consciousness.

These grids of consciousness constitute the underlying structures, or consciousness templates, upon which all manifestation is built. These consciousness templates are called morphogenetic fields (MF's), and they represent conscious, living intelligent, individuated aspects of the God Mind. Morphogenetic fields are the creative thoughts of God, born into perpetual manifestation.

The entire structure of the non-dimensional Energy Matrix, and its inherent, smaller, universal constructs of the Time Matrix are built upon the living conscious substance of MF's – and so – the entire cosmos is alive and aware. All this exists within, and are perpetually manifesting as, expressions of the Eternal Mind of God. The units of consciousness of God (partiki, etc), upon which MF's are built, form the first building blocks on which the sub-particles, particles and anti-particles of matter pre-matter and anti-matter radiation manifest. And thus, all matter forms from the microcosm to the macrocosm are intrinsically composed of the substance of God.

Within the infinite contours of Cosmic structure uncountable smaller structures of creation are formed. The multi-dimensional family tree of consciousness, through which human consciousness (and other forms of identity) receive individuation while retaining their God connection, exists as a structure of ordered consciousness within the greater structure of Creation.

The family tree of consciousness, like Cosmic structure, is built upon conscious MF's that span the micro and macro-cosmic contours of the Time and Energy matrices. The multi-dimensional MF of the family tree of consciousness can be understood as a template of identity through which the human body and consciousness are directly connected to the God Mind.

There can be no real separation between the individual and the God Mind. This is simply because the morphogenetic template of identity, upon which individual

consciousness manifests itself as a part of the cosmic identity structure and both the individual and the cosmos exists externally within the Mind of God

So then, the process of spiritual advancement to attain At-One-Ment with God, is a process of expanding into the cognition of "I AM God" knowing the self as an expression of this Infinite consciousness knowing the self as an externalised collective consciousness, with which no real separation exists between God and it's infinite manifestations

When one expands to encompass the knowing "I AM God", one simultaneously understands that ALL is God, and therefore does not place the personal, individuated identity as above, or superior to, any other manifestation of the God Mind. Humility, in reference to all life, and not the illusions of personal grandeur, are the result of knowing the self as the "I AM Presence" in complete At-One-Ment with God.

At-One-Ment and Absolute Love

Through the condition of At One-Ment with God, through selflessness and humility, genuine love can be known. The feeling of love is the result of the condition of vibrational harmonisation, or the co-resonance of consciousness, between the lover and the Beloved.

Expansion into At One Ment with God creates the condition of absolute harmonisation between the individual consciousness and the God Mind, a co-resonance of consciousness between God and the individuated manifestations of itself

In terms of "felt experience", At-One-Ment creates the feeling of absolute love, Unconditional Love, the quality of love the God Mind experiences toward all it's manifestations (with whom it eternally remains in a state of vibrational co-resonance of consciousness).

All things exist within the Mind of God and so the God Mind exists in a perpetual state of vibrational co-resonance or Absolute Love with all manifestations of itself. The experience of lack of love reflects the condition of non-resonance of consciousness between the individuated manifestation of God and the totality of the God Mind itself.

Non-resonance of consciousness or vibrational disharmony between the individual mind and the God Mind can only be experienced by the individual who has yet to achieve 'At One Ment' with the totality of itself as a manifestation of the God Mind

Personal expansion to 'At-One-Ment' or harmonic resonance with the God Mind allows the individual to transcend all vibrational disharmonics of consciousness and to retain co-resonance with the Cosmos. At-One-Ment creates absolute love and absolute love IS the eternal vibrational resonance of consciousness that holds the structures of the Cosmos together

Absolute love creates the experience of absolute joy and ecstatic fulfilment – and

In human terms generates the attributes of all those feelings and sensations deemed as 'good'. All conditions of disease, conflict, pain, anguish, and suffering are the direct result and manifestation of vibrational dissonance of individual consciousness with the God Mind.

The only absolute cure for any malady is absolute love.

Suffering is intended to show one the areas in which disharmonics of consciousness reside and exists to stimulate the multidimensional identity to reorder its consciousness into harmonic co-resonance with the eternal God Mind. As At-One-Ment with God creates absolute love, and as absolute love creates the absolute cure for all suffering, the conditions for achieving At-One-Ment is most desirable if one seeks to end suffering and expand into the transcendent realities of ecstatic fulfilment.

Creating the experience of At-One-Ment is the process of progressive expansion beyond the boundaries of the personality and ego identity into the greater aspects of gestalt identity as contained within the family tree of consciousness – a progressive realisation of the Self as a plural rather than singular construct. The personal identity is not lost, overtaken or compromised within the expansion of self – it is instead it's Self expanded to become the gestalt identity – just as the identity of the child expands to become the adult.

As the micro and macrocosm are structured on templates of consciousness (MF's) it is most useful to understand these basic structures if one seeks to achieve At-One-Ment with God. Through understanding the structures of God consciousness upon which individual and Cosmic experience is built an individual can begin to grasp, and apply, the conscious mechanics of energy by which At-One-Ment is achieved. Comprehending the structure of multidimensional identity, and the family tree of consciousness out of which the individual emerges, provides a consensual road map to the destination of ultimate At-One-Ment with God.

For this reason, the God Mind makes available the knowledge of MF structure so the individual can consciously co-create its experience of evolution and expansion into At-One-Ment.

The MF, or template of consciousness of the family tree of consciousness, for each individual is a 15D structure of energetic substance composed of units of consciousness (partiki etc.) There is a set pattern of organisation inherent to this structure which corresponds to the greater MF's of which the Time Matrix is composed. Multidimensional human identity possesses five primary structures, in time and three outside of it.

The five correspond to each HU/Time Matrix expression. As each HU comprises three dimensional fields, each body is thus structured on the three templates of consciousness – or morphogenetic wave grids (within which that particular body is stationed and which each HU contains).

Each of the five bodies of human consciousness construction represent energy forms or templates of geometrically arranged energy which hold the instructional programme, or underlying intelligence upon which the matter form and identity will manifest within its respective HU. The three dimensional bodies are MF's that are

constructed on units of consciousness (partiki etc) which take the form of crystallised or frozen sound. Through the process of the consciousness moving through the unified energy fields of each HL, these particles of frozen sound are stimulated into vibrational movement.

This stimulation of crystallised sound patterns transforms the original crystallised sound into a living pattern of conscious awareness that takes the form of a fixed standing wave pattern known as a scalar wave (SW). Thus, each higher body is a SW field, i.e. a field of SW's built upon a fixed morphogenetic template of sound. As this consciously moves itself or evolves through 15D's it progressively stimulates into life the scalar grids of the higher bodies. This brings into activation and manifest expression, progressively more portions of its family tree of consciousness. The process of expanding the personality to the At-One-Ment with God has its equivalent action in terms of electro-magnetic dynamics.

Therefore At-One-Ment represents the progressive activation of the scalar grids of the higher bodies within which the consciousness of the family tree resides.

Understanding the simple structures of the higher bodies and the greater morphogenetic construction within which they exist, makes the process of achieving At One-Ment comprehensible. Though there are many complex multi dimensional mechanics involved within the operations of consciousness, and the higher bodies, it is enough to understand the basic existence of the higher body structures – for with this knowledge one can take an active hand in the personal evolutionary process.

The process of higher body merger and identity integration is the intrinsic process of human evolution through time, if one can understand that the goal of At-One-Ment with God is achieved through merging the higher bodies and identity levels, the process of achieving At-One-Ment becomes clear and more easily achievable.

The higher bodies form a part of a larger morphogenetic template beyond the five higher bodies which involves three other, non dimensionalised bodies. The five higher bodies are expressing within the Time Matrix. The extra three bodies correspond to the larger portions of the family tree that are stationed within the Energy Matrix within which the Time Matrix exists.

The three highest bodies represent the three levels of persona gestalt identities that are referred to as 'Ascended Mastery'. The levels of identity in these three bodies correspond to the three non-dimensionalised levels of the Cosmic Energy Matrix – the Triad Matrix, The Polaric Matrix and the Ekatic Matrix (closest to the God Mind). The identity levels corresponding to these three matrices of Cosmic consciousness are the Geomantic, the Rishi and the Eckar.

As the identity progressively merges with the five higher bodies, the identity creates a progressively expanding scalar grid as the levels of identity expand into integration. When viewed collectively the eight higher bodies of the human family tree represent one larger MF made of fixed points of sound and light which represents the Monad (or Monadic identity imprint).

The Monad is an energy form, a scalar grid, which holds the entire electro-tonal design of the Cosmic family tree of consciousness. It is composed of the eight

higher bodies and the stations of consciousness contained within them. The Monad exists as a gestalt identity MF eternally stationed within the God Seed within the God Mind. The Monad contains within its structure the smaller individuated MF's for the Eckar identity, and the smaller identities of the eight higher bodies for the individual identity incarnated in time. The Monad is the key to achieving At-One-Ment and expansion into the God Mind – to attain freedom from the cycles of space, time, and matter manifestation within the Time Matrix.

The Monad represents the core programme of light and sound - energy, consciousness and identity, through which the original Seed of Consciousness (SC) and family tree of consciousness (FTC) were created; the original geometrical construction of consciousness that emanated forth from the God Seed to create the 8 higher body MF. The Monad is a singular point of unified energy identity within the gestalt of the Cosmic FTC and represents the individual's direct connection to the God Seed and the final expansion into God.

The God Seed represents the core MF out of which multi monads or Cosmic family lines of consciousness emerge. There are 24 primary God Seed identities within the God Mind. These Sacred Identities possess perpetual cognisant At-One-Ment with the God Mind. Each of these 24 identities creates within itself sets of 12 Monads or Cosmic family lines of consciousness. Each monad creates within itself sets of 12 Eckar identities – or – original seeds of consciousness, which sponsor sets of 12 universal family lines of consciousness within the Energy and Time Matrices.

The God Seed, the Monad, and the original SC are interwoven but are not the same energy constructs. Each God Seed holds within its design the pattern for 12 Monads, or CFTs. Each Monad creates sets of 12 UFTs. Each seed of consciousness or universal family tree creates family trees of consciousness within the universal Energy and Time Matrices, (i.e. "soul" groups).

In relation to an earth individual achieving At-One-Ment with God, the dimensionalised FTC and nondimensionalised Universal Family (1), the Monad or Cosmic Family (2), and the God Seed or God Family (3), together represent a pillar of direct connection in consciousness between the God Mind and all its individuated parts. This Pillar of Consciousness (PC) exists as interconnected platforms of identity through which the individual progressively expands as it evolves to full At-One-Ment.

In understanding the basic structure of this Cosmic hierarchy of Identity one can learn to use the individual consciousness in ways that expedite the process of evolution. And, one can more easily keep the progress of evolution on its intended course. One of the fastest ways to realign personal evolution toward One-ness, is to bring the dormant energetic component of the Monad and the God Seed morphogenetic scalar grids within the earthly body, into life consciousness – thus activating the God Seed and building the Pillar of Light (Maharata).

Such development of the Pillar stimulates all eight bodies into simultaneous activation. Building the Pillar of Light is achieved by activating the God Seed, the Pillar of Light is a morphogenetic construction of scalar grids that appears in the bio-energetic field as a progressively expanding pillar of multi-coloured light (hence, 'the rainbow bridge'). The pillar which forms from the progressive activation alignment

and merger of the five higher bodies is a conduit through which the consciousness of God flows into conscious human embodiment. The full Pillar of Light is constructed when all eight higher bodies have been aligned activated and opened into the consciousness of the God Seed. This is called God Realisation.

To understand this evolutionary process in simple terms, one can view evolution as the progressive building of the Pillar of Light that connects one, through the fields of time, and the hierarchy of identity, directly to the Heart and Mind of God.

Activating the God Seed begins to build the Pillar of Light, from the top down; the God Seed down to the incarnate, progressively aligning the geometrical constructs of the Monad's magnetic field with it's original design within the God Mind. As the 8 higher bodies in the Monad's scalar grid progressively align and merge with each other, the Pillar of Light progressively descends toward the incarnate – eventually encompassing the incarnates body and consciousness within the hierarchy of identity.

The process of re-merging the personal identity within the Pillar of Light has been referred to as "entering the fold"; through which the incarnate awakens to it's direct connection to the God Mind, ultimately expanding to know itself as a limitless expression of God.

The Melchizedek God Seed

Of the 24 God seeds, only one God Seed is responsible for the multi-galactic human lineage. The original human lineage was manifest upon 12 Monads, or cosmic families, and each of the 12 monads manifested 12 Seeds of Consciousness or Universal Families within the Energy and Time Matrices.

All the dimensional and cosmic families of human consciousness manifested through one common God Seed. This common God family consciousness gestalt goes by the name of Melchizedek. In the multi-dimensional scheme of galactic creation, the God Mind also manifests cosmic family lines through the 23 other God seeds. Many, other, ancient, inter-stellar races that entered the Time matrix, prior to the time of the human family consciousness, have as their God Seed a Monadic identity other than the Melchizedek Collective.

Through the course of Interstellar history, numerous families of both the Melchizedek lineage, and other God Seed lines, encountered difficulties within their Monadic imprint and found themselves unable to retain their connection to the Pillar of Light. Distortions within the geometrical structures of their MF's rendered their bodies unable to merge – a condition that keeps the consciousness trapped in time, unable to achieve full expansion to At-One-Ment with God.

Of the 24 God Seeds, the Melchizedek God seed is one of the few that has kept the Pillar of Light unbroken through a majority of their family lines. **The Melchizedek (Cloister) Collective has thus become known as the Keeper of the Codes and Guardians of the Path of Ascension for all Races within the Time Matrix.**

The human Turaneusian lineage is one of the manifestations of the Melchizedek God Seed, and it was created to function as a vessel through which the inter-stellar races, trapped in time, could re-evolve into At-One-Ment with the God Mind.

Most of the beings now incarnate in human form did not begin their journey into Time with the human imprint. Most present day humans were originally a consciousness that manifested in other than human form – emerging out of one of the other 23 God Seeds/ Families.

In the beginnings of human creation these other families of consciousness were spliced into the human, genetic, morphogenetic lines so that they could re-evolve through the Melchizedek God Seed. This process of splicing one family of consciousness into another MF is called a "Host Matrix Transplant" – and the Melchizedek God Seed has served as a Host Matrix for the ascension of many inter-stellar races.

Most humans possess other than human re-incarnational memories, but in their sub-conscious minds; and, many of these other than human races were not originally a part of the Melchizedek God Seed families. Within the Melchizedek Monads of Cosmic family lines there thus exist two primary branches: one, created by gene splicing by one racial origin with the Melchizedek; the other a gestalt of the original families that emerged directly from the Melchizedek God Seed. These original family lines of the Melchizedek God seed are referred to as the Melchizedek Cloister.

When an Earth incarnate begins activating the God seed, it calls in to manifestation (within it's genetic code in consciousness) the scalar grids of it's Monad, or Cosmic family, or God seed, upon which it's family originally manifested.

It begins to build the Pillar of Light to it's Self, from it's respective God Seed. If the consciousness of the incarnate happens to be of the inter-stellar races that encountered distortions in their higher bodies (which manifests in the biological genetic code) these areas of morphogenetic distortion will create blockages, or blank spots in frequency, within the Pillar of Light descending from the God Seed. Such blockages can occupy many incarnational cycles to correct, and it is quite difficult to do so from the incarnates level of awareness.

Activating the God Seed in cases of Monad distortion is still desirable, but it is incomplete in terms of fulfilling ascension into At-One-Ment with the God Mind.

Because it is difficult from the earth human perspective to determine the level of higher body distortion (and to identify the original God seed Family Tree), the practice of Melchizedek Cloister Ordination is often used to assist the incarnate in building the Pillar of Light.

The Melchizedek Cloister Ordination (MCO) accomplishes activation of all the original God Seed, but also serves to splice the incarnates consciousness and B higher bodies into the Melchizedek Cloister God Seed. The God Seed Melchizedek then serves to re-align any blockages in the Pillar of Light; thus, holding the integrity of the higher bodies intact until all distortions can be re-aligned with the Monad of the original God Seed identity.

The practice of Melchizedek Ordination (MCO) can save the incarnate many millennia of earth incarnation cycles throughout the lower multi-dimensional

universes, thereby providing for the Incarnate a rapid path of ascension and At-One-Ment with the God Mind.

The decision of the Earth Incarnate to accept MCO helps the entire multi-dimensional gestalt to expedite it's own process of ascension. Thus the 24 God Seed identities encourage the process for earthly incarnates.

If the higher bodies of an individual's Family Tree are aligned (allowing the proper building of the Pillar of Light) the MCO serves simply to accelerate the natural process of ascension through the organic Monad and God Seed. But if the Integrity of the Pillar of Light (between incarnate and God Seed) is compromised through Monad distortions, then the MCO serves as a lifeline for the incarnate and it's hierarchy of identities.

Special "Light Exercises" activate the God Seed and begin the process of building the Pillar of Light .. but these do not realign distortions within the higher bodies.
